Chapter 6. The Alphabet Revisited, It's all Greek to me	60
Chapter 7. Mythological Madness and Mantras	66

Chapter 1. Gods, Secret Societies and Illuminati

Man's quest for knowledge goes right back to pre recorded history
And generally speaking it was about uncovering of mystery,
It was more for the understanding of the world that was around
Life, death, the Sun and Moon and to the Seasons that they were bound

They were actually quite spiritual virtually from the offset
And believed in Higher Beings that you didn't want to upset
They thought the Sun, the Moon and Earth had personalities
So should be treated with respect so not to displease.

As time moved on these beings took a more dominant role
For with the advent of agriculture they got more control,
Man needed them even more now so they got more say
He even found some new Gods to help him on his way.

Gods for the winds and water and quite a few beside
That all needed to be worshiped so they would not chide,
Those who did the worshipping saw an increase in their power
And were often called upon when the crops needed a shower.

Now around this time too new Settlements evolved
And the job of Hunter-gatherer had all but been dissolved
(Some tribes still continued but no progress could be made
Because they got too big to sustain themselves and so had to raid.)

These Settlements grew in size and the worshipers became Priests
Who offered up not just prayers for the Gods now wanted feasts,
Great Temples were built for them to show how much Man cared
For the Priests had said the Gods told them to and to question no one dared.

The Priests became privileged for they said they had the Gods ear
And they got more power which they held through fear,
They also grew in numbers as more people joined the band
They found that it was easier then working on the land.

Now some men though were humble and actually did care
They prayed to these gods and found that they were there,
It was their Higher Self but that they did not see
And from their communication the Mythology came to be (4000 B.C.?).

With time's evolution the Priests became the cultural elite
Though now most of them had fallen to arrogance's deceit,
They quoted the Mythologies, the Scriptures of the day
And used Ritualised Service and other forms of decay.

They thought they were spiritual, gods chosen amongst men
Who did not need the sword as their gods were now their pen,
And they also got more materialistic, a very fatal flaw
For with that inside them they were spiritual no more.

Others though read the Mythologies and saw they held some truth
Though its actual meaning to them it was aloof,
They knew that they were special though and maybe held the key
To be like the gods and have their immortality.

Some wanted the power but did not want to share
So met with like minded people and got their comfort there,
A few even left the Priesthood and set up on their own
And from this selfish act the seeds of the Secret Society was sown.

Now although they were secret some still kept a Public face
And great ornate Temples were their Public Place,
They became repositories for valuable items and grain
Which the Priests used to borrow out with interest their gain.

And from this transaction Banking first came to be
It actually started in Mesopotamia around 2000B.C.
A nice little store Farmers and Merchants would borrow from
But that will be in the next chapter after this one's done.

Anyway time moved on more and Jesus came to Earth
And with his vow of poverty it gave the Priests real mirth,
Until the People followed him and then Paranoia was grown
So they had him quickly killed and then took him as their own.

His words became a religion, sponsored by the State
And as that State was Rome they were actually turned to hate,
He became an inspiration, to them a battle cry,
So the act of loving thy neighbour I'm afraid it had to die.

With the fall of this great Empire though things got really sick
If you wanted to follow his words now you'd become a heretic,
You see with Jesus' words the Priest had now become surplus
You could get communion from God just by following His purpose.

These were called the Gnostics and they drank straight from the vine
They looked for hidden knowledge of things known as divine,
They did not follow Ritualised Service only service to mankind
They did not need a Priest as the Holy Spirit was easy to find.

One group called the **Cathars** in Southern Europe they were based
And between the 12th and 14th century they found Gnosticism to their taste,
They thought that there were two Gods not just one in heaven
The other was for Earth and those spirits that weren't leaven.

They believed their souls were sexless, Angel Spirits trapped on Earth
And Earth was controlled by Satan and so was not a place of mirth.
They believed they'd find perfection by forsaking material desire
So they could rejoin with the true God and leave this World so dire.

They also believed in reincarnation until salvation came
By a baptism of the Holy Spirit, purified by its flame,
This was to be given when death was imminent
And if it didn't happen this time, a new life they'd reinvent.

Now these beliefs might seem odd, to some even absurd
But come to Jesus' teaching they were closer to his word,
Reincarnation was a belief that he actually taught
Though when the Church became established it was never caught.

Another thing to notice is salvation from perfection
Baptism from the Holy Spirit if they pass inspection,
They'll go on to the other realm and they'll live forever
To equate that with Buddhism is not a hard endeavour.

To get to this perfection they have to renounce their material self
So they become pure Souls in the best of health,
They have to curb material desire to get the ego pure
And then they'll live forever, simple, nothing more.

Their understanding was pretty close though there was a little more
One minor little detail to get right to the core,
The immortality that they craved was actually Earth bound
Heaven is a state of mind when within you God is found.

That was Jesus' teaching with it's purest face
What it's really saying is evolution through grace,
You do not need a Priest as you actually knew the way
When it came to guidance a middle man had no say.

Now the Church tried to change them as they saw a loss in power
But the Cathars stood firm and refused to cower
So by 1350 they were eradicated just for trying to live the good life
Yes following the Word of God would give you lots of strife.

Another thing about the Church was brotherhood was gone
They got avaricious and so they worshiped Mammon,
They believed in the Chain of Being and put it in place
To say we are all God's children you would end up in disgrace.

Yes the Church got vain and greedy even though it was not poor
It had amassed that much wealth that it didn't need any more,
But it played on the fear of God and did it very well
For most of its income came from those scared stiff of hell

You see they came beneficiaries of endowments by the score
From People trying to compensate for breaking God's Law,
They'd thought they'd get to Heaven for that was what they were told
Yes the **Babylon Whore's** lies were starting to get bold.

(Gateway to the Heavens is what Babylon stands for
And someone that sells herself is what you call a whore,
The Church promised Heaven to anyone that could pay
And if they paid them even more for them they'd actually pray).

Now Jesus was a peacemaker, that's never been denied
Though from the start of his religion that idea was defied,
As the Roman State Religion he became their war banner
Then the Roman Catholic Church carried on in the same manner.

It seems the Bride of Christ has fallen to adultery
And got involved in politics instead of upholding its ministry,
It got courted by Royalty as validation was their thing
It appears that in the game of Chess the Bishop now beats King.

At this time the Christian Countries thought the Pope supreme
Though there was other Countries not on the same team,
They followed another Religion though it came from the same source
And they too had noble warriors that made for quite a force.

Both of these Religions thought God was on their side
And venerated Jerusalem as the place where Jesus died,
The Muslims revered Jesus though not as the Son of God
They saw him as a Holy Man who deserved a respectful nod.

In fact Jerusalem was not that important as Mecca was their place
So when they captured it (638) Christians could still show their face.
Things were fairly amicable for the next few hundred years
Until it was recaptured in the First Crusade(1099) and then began the tears.

(Now before I can continue I'd better mention just one thing
And that's the Catholic Church had another wing,
They were called the Byzantine Church and the Eastern side they led
Though had split in the Great Schism (1054) not wanting the Pope as its head.)

Now Alexios Komnenos the Byzantine Emperor had requested aid
Wanting an armed Pilgrimage to Jerusalem to be made,
So in 1095 Pope Urban II came forward to aid his plight
And actually offered salvation for all men that would go and fight.

That's just a bit of groundwork as you know the history
It's to lead us onto how the **Knight's Templars** first came to be,
A French Military Order that was endorsed by the Church
To protect Pilgrims to the Holy Land in their Spiritual search.

At the time of their Conception (1118) Jerusalem was under Christian control
For after the 1st Crusade the Muslims had lost that role
To the area around it though that was not the case
No to the weary travelers it was a very dangerous place

They were routinely slaughtered and I don't just mean a few
Sometimes by the hundreds before the carnage was through,
It seems the road from Jaffa was paved with Christian blood
And not just a trickle it was more like a flood.

The Order when first started was actually quite small
They only had 9 Knights and so could not protect them all,
With few financial resources they relied on donations to survive
Though it wasn't very long before they started to thrive.

In 1129 at the Council of Troyes they met with Church approvement
And money, land and new recruits came with this endorsement,
In 1135 Pope Innocent II donated Papal money to their cause
Then 4 years later he went further and exempted them from local laws.

The Templars now after this were exempt from checks at borders
And also from all authority except the Pope's own orders,
They were freed from paying Tithes though could collect them on their land
Though at this time they had none so it was not too much of a demand.

Now with all this patronage their numbers very quickly grew
And they took to it with gusto their situation new,
No longer protecting Pilgrims as it was now a time of war
They proved to be real fearless and were always at the fore.

Although renowned in battle most actually didn't fight
They acted in support positions and keeping finances bright,
They had took a vow of poverty though amassed a lot of wealth
And took an early form of Banking to keep it in good health.

Noblemen on Crusade might place their assets under their care
Then the Templars would manage them while they were over there,
Also too the Pilgrims though they'd get a Letter of Credit
To be cashed in on arrival so it wouldn't be robbed in transit.

With all the wealth accumulated they bought vast tracts of land
In Europe and the Holy Land, Farms and Vineyards were manned,
They also got into manufacturing and import/export too
And owned large fleets of ships to carry it all through

They build great Castles and Cathedrals as they liked the feudal way
They even once owned all of Cyprus so they really made it pay,
They could probably be classed as a Multinational Corporation.
Who came from poverty but excelled in wealth creation.

Now onto the fighting side in which they did excel
They fought in many battles and did very well,
But the tide was turning, things never went as planned
For the weary Crusaders were driven out the Holy Land.

The Templars who once benefited from it had a fall from grace
And after the fall of Acre (1291) were now without a base,
They still were very powerful until they fell foul of the French King
For Phillip IV owed them money and paying was not his thing.

So he pressurised Pope Clement V to have the Knights dissolved
Reluctantly he agreed and soon the problem was resolved,
He accused them all of heresy and killed them by the score
And after it was over the Templars were no more.

(They say that some survived though but had to go to ground
So went to other Countries where sanctuary was found,
They kept their hidden knowledge and also some wealth
And still thrived on secrecy and worked on through stealth.)

Well that was just the Templars but there were many more
I will just do a few of them as not to become a bore,
Each Religion had them so it seems the quest was rife
And generally with the Established Church they got into strife..

Now we come to the **Illuminati**, though they've been quite a few
The term goes back to Roman times so they're nothing new,
They think they are enlightened and so are here to serve
By that they mean to rule as their logic's took a swerve.

In the 1500's in Afghanistan the Enlightened Ones first took the role
They wanted to overthrow the existing order and then to take control,
They wanted communism for everyone though under their guidance
Though their leader Bayazid Khan never got the chance.

They were called the **Roshaniyya** and they followed the Sufi way
So perhaps a little elaboration to keep ignorance at bay,
Similar to the Gnostics though Islam was more their thing
Their Leader was a teacher who they looked to as their King.

Now the teacher was called a Wali (saint), the last of a chain
That linked right back to Muhammad and Self Purification was their aim,
They believed that as they were originally pure it was a return to Grace
So when it came to Judgment Day they would have a stronger case.

Bayazid was known as Pir Roshan and he founded the movement
His followers were mainly Pashtun tribesmen looking for improvement,
For they faced injustice and inequality under Emperor Akbar's lead
And he had the Mughal army behind him to enforce the deed.

Roshan wanted an equal Society though did more than just preaching
He educated and instructed his followers so it was also teaching,
His teachings new and radical condemned the Religious Establishment
And advocated Egalitarian principles to be adopted by the Government.

With his teaching done he sent out his followers on a recruitment drive
Carrying Letters wrote by him so that his message it could thrive,
He wanted more to join his movement so that his words could bide
And he also wanted to be accepted by them as the Perfect Guide.

Now when the Letters were sent out they actually did well
For a lot of the Tribes around him liked what he had to tell,
His condemnation of the Religious Establishment found a willing ear
And his views on prayer and fasting too were things they held onto dear.

He moved to the Tirah Valley and established there a base
Where he rallied other Tribes as they thought he had a case,
He raised the flag of rebellion for he knew he had good cause
And though he was good at skirmishes he wasn't so good at wars.

He was routed at Nangarhar by General Muhsin Khan
Though he managed to escape as to luck he was a fan,
His luck ran out at Tarbela though for it was there that he was killed
Then all but one of his Sons were executed as it had been willed.

His Son Jalala at the age of 14 was too young at the time
So he was pardoned by Emperor Akbar then carried on with the crime,
He was successful for a while but then in battle lost his life
Though he had his nephew Ahdad then to carry on the strife.

Ahdad fought for a long time and then died with sword in hand
Then his head was sent to Emperor Jahangir as it was his demand,
(When Jahangir died in 1627 Mughal domination was no more
For the Afghans rose against them and they lost the war.)

Now Ahdad's son Abdul Qadir with his mother wanted revenge
So he went out with the Roshaniyya, their mission to avenge,
They fought on for awhile but after vengeance though did cease
And then a truce was brokered and finally there was peace.

So finally on Pir Roshan there's not much more to say
He was a humble man who would often fast and pray,
I would say he was enlightened and kept God in his heart
And did not like injustice and of it had no part.

Around the same time in Spain another Illuminati came to be
Though it had been said that they came over first from Italy,
Possibly remnants of the Cathars they rejected the Catholic Church
And used Mystical Knowledge and Visions in their God search.

The **Alumbrados** was their name and they championed the Soul
Believing once it found perfection it could see the picture whole
A deeper understanding of God's essence called His Light
And communication with the Holy Spirit once their Soul was bright.

They did not believe in Ritual Worship, saw it as a waste of time
And they also thought the Sacraments guilty of the same crime,
They thought they could get communion with God through direct revelation
An Inner Light would guide them until they found perfection.

Contemplation and meditation would help get them to their goal
And mystical experience would also take a role,
They believed once they found perfection then that's how it would remain
It would not progress nor regress and never would it stain

Now once this was obtained they thought that they were pure
And so the act of sinning became an act no more,
To the pure all things are pure well that was what they thought
So they could live a life of debauchery as that was what they were taught..

Eventually they fell to scandal as this was not what God had planned
And then the Inquisition got involved and in 1525 they were banned
They carried on regardless though as they lived a life of chance
And then in the early 1600's moved across to France.

With a change of name though they still kept the same plan
They were led by a former Catholic Curate called Pierre Guerin,
They carried on the same until the Church got annoyed
So in 1635 they were suppressed although not destroyed.

They were pretty much enlightened as they recognised the Soul
And also its importance in obtaining their goal,
Contemplation and meditation in the development of Self
And also revelation to improve their spiritual health.

Now though they had some light there was a little more to grow
For if you fall back down to sin all your hard work will just go,
This is actually what you would call a fall from grace
And then in the queue for immortality you would lose your place.

The last one on the list is the **Bavarian Illuminati**
And come to Conspiracy Theories this one holds the key,
This is who they mean when the term Illuminati is said
So I would say it's about time I put this thing to bed.

On 1st May 1776 5 men gathered for a meet
And as it was for World domination they had to be discreet,
A Bavarian town called Ingolstadt was the actual venue
That the formation of a Secret Society was first put on the menu.

They first went under another name but felt the need for change
As the name Illuminati seemed more within their range,
They thought they were enlightened and therefore fit to lead
And their leader Adam Weishaupt was well up for the deed.

Now Adam was quite enlightened at he had read a plenty
He was a Professor of a Jesuit University from the age of twenty,
His Godfather Baron Von Ichstadt was a lay director there
And as Adam's dad had died when he was young he was under his care.

He had access to the Library and all the Books of an Esoteric kind
With his love of reading he soon had an enlightened mind,
He also had a love of propaganda as it was the Jesuit way
As too liked their secrecy and was mindful of what to say.

(Now the Jesuits were suppressed 3 years before the meet
By Pope ClementXIV under pressure from the Royal elite,
It was under this weak Pope that the Papacy lost its Sword
Though 41 years later under Pope Pius VII it was finally restored.)

So back to the meeting then and what was plotted there
I guess to call it anarchy would not be too unfair,
They wanted Religion abolished and the Governments too
It would be a Universal Republic by the time that they were through.

They want to keep the People ignorant of life's bigger picture
And thought the only way to do this was take God out the mixture,
An Atheistic population they thought would be easier to manipulate
For without faith, their Love for God, they would quick succumb to hate.

The Esoteric Knowledge though they'd keep that to them self
For they understood its power of strengthening mental health,
They still craved immortality but God had now become surplus
For they would bring Heaven to Earth as that was their new purpose.

Well to start this New World Order they had a recruitment drive
By infiltrating the Freemasons, a place they knew they'd thrive,
They attained positions of power and like minded men they found
It was a good decision as it proved very fertile ground.

They also joined Literary Libraries to increase their influence
As too the Political Press would help them to advance,
They even recruited Clerics though Religion they would shun
But they did have influence when all was said and done.

They courted any upcoming Writer that went against their plan
And tried to win them over so they'd become a fan.
If they could not do this though them they would decry
Hoping the Writer's influence through doing this would die

Now the Common People to them they were just tools
They would be manipulated through the use of Schools
Though at the time there weren't that many around
But they were growing in number and would soon be easily found.

As time passed by the Illuminati members number rose
They say around 450 confirmed members but in truth no one knows,
The spread all around Europe in their recruitment search
Though in Bavaria they were banned 4 times after pressure from the Church.

Some say that after Bavaria that the Illuminati were gone
Whilst others take another view and say that they lived on,
They say that they went underground just maybe changed their name
But the knowledge and ambitions they had were actually the same.

Their ex members still had influence and being schooled in deceit
Along with it its secrecy you can bet they were discreet,
They actually were enlightened men, well to a degree
So could easily climb to high positions in Society.

At the time of abolition though they were on the growing stage
And were really not quite ready to truly come of age,
There were some people in power too that had a willing ear
Though chose to keep it quiet mainly due to fear.

Now the name Illuminati has been used by others before
But they were not connected, just the name and nothing more,
It could have happened once again by others schooled in deceit
So I think a better term to use would be 'rehash and repeat'.

The term Illuminati to some has become an obsession
And has distracted them from their real foe, demonic possession
We're talking about the deadly sins, and all controlled by Pride
These are the actual things from what the Soul wants purified.

The Gnostics had this knowledge but it was forbidden
So they were all killed off and the knowledge rehidden,
You see in a material World you have to be materialistic
This temptation rots your Soul and stops you being realistic.

We will look into the Esoteric side a little later in this book
Just read on and be patient as it is worth the look,
This knowledge is actually buried so to find it is demanding
But take heart and have this faith it will build your understanding.

Secret Societies to this day do still actually exist
They're not just shadowy figures enhanced by History's mist,
Some have real power, enough to mould a Nation
And that's not just a Conspiracy Theory it's actually education.

Chapter 2 The Banks and the Beast from The Book of Revelation

Next I would like to go back to something mentioned before
We took a glance on Banking but I'd like to add a little more,
A little elaboration, maybe look into its history
For it's another topic that exudes some mystery.

Virtually from the very start Man began to trade
Firstly with Obsidian from which their tools were made,
Though with technical innovation Man evolved some more
And then both Copper and Silver were to be the core.

As Man got more civilised in trade there was more choice
Ornate goods and foodstuffs started to get a voice,
Trade routes got more established and finance came to be
Bartering became passe as the World was turning monetary.

Now if you may recall I've mentioned Temples before
I covered it quite well so there's just a little more,
The people who deposited their wealth had to pay a fee
And later for a price they would exchange your currency.

Palaces as well to a lesser extent used to do the same
These transactions were documented so there could be no blame,
Laws you see were set in place to make sure that it ran well
They had to have a written contract in case suspicion fell.

The Temples as a holding place eventually fell from grace
For they became easy targets when war would show its face,
Quite a few were pillaged for their silver and their gold
So the State took over and set up a stronger hold.

(Now though the Temples were religious Mammon was their God
And so to charging interest they gave a hearty nod,
Interest rates were actually legal and fixed by the State
Though with new Religions coming to the fore that would soon abate.

The Jews had been forbidden to charge it though only to their kind
They actually had been obliged to charge to those of a different mind,
Later in the 14th century this would bring a lot of sorrow
For though Christians could not afford to lend they were free to borrow.

Both Christianity and Islam could not charge interest on a loan
It was seen as immoral this Usury as it was known,
Man though being devious he eventually found a little flaw
And said excessive interest i.e. set above the Law.)

With the fall of the Roman Empire things got rather dark
And Banking fell in Europe as conditions were too stark,
It was a very turbulent time, a time of major unrest
For the different people once dominated fought to see whose best.

Now along with the internal strife there was an external threat
As Islam now was on the move, a Religious War was set,
It started in the Middle East but very soon it spread
Yes a very bloody time that left countless people dead.

This went on for many years before History could turn a page
It really was a violent time this so called middle age,
Medieval as it was known, it just seemed a time of sin
But as it was coming to a close the roots of Modern Banking could begin.

It actually started off in the 12th Century in Lombardy, Northern Italy
Evolving from medieval merchants to trade in commodity,
It was called a Merchant Bank and finance was its aim
To make life a little easier, well that was the claim.

As Usury was still frowned upon the Jews came to their aid
For after fleeing Spanish persecution they still desired to trade,
In City Squares you would find them as they were barred from owning land
It was here they set up Benches to cope with the demand.

(Well a bench is a **banca**, in the Italian Language I mean
And the connection with the word Bank can be easily seen,
Also there is **banca rotta** and a broken bench you will find
And to an insolvent trader bankrupt comes to mind.

To take it a little further though I don't want to be a bore
But to the bankrupt meaning I could add a little more
Though I'm giving you due warning that it might make you choke
When you have no money it is then that you are broke.)

Resurrecting ancient practices of both credit and of loan
They found out to their joy that the wealth had quickly grown,
With time and evolution more services were provided
More opportunities for wealth that could not be derided.

The Christian Traders though to the Usury Law were bound
And so looked to legal loopholes to help them get around,
They took to discounting first as it was the Islamic way
For though they too had an Usury Law they could make it pay.

Another way around the Usury Law was to loan it interest free
But the one who took the loan out would have to pay an insurance fee,
The fee and possible interest rate would be just the same
And so the Bankers would get their money and be free from blame.

As time moved on some more a new distinction came to be
And that was that consumable necessities would be Usury free,
Durable good on the other hand on these you would still pay
It appears with evolution the Usury Law was going away.

From these devious means the Bankers could now gain
And so the Jewish influence soon began to wane,
Powerful Italian Banking families from this were evolved
And established branches everywhere once the Law was nearly resolved.

As time moved on a little further the Law came to an end
And the Italian Bankers took over as the main ones who would lend,
As time passed by even more Banking Families in other States evolved
And in 1407 in Genoa with the Bank of St. George the State got involved.

Now as for the Jewish Bankers they were not left out
They still took to Banking as there was plenty of trade about,
They found a place in Christian Noble Houses and became the Court Jew
And amongst their many lucrative roles was raising revenue.

I suppose they were precursors to the Secretary of the Treasury
And had a very varied role including Personal Bankers to the Nobility,
They were found all over Europe and played an administrative role
Devising new sources of revenue as creating wealth was their goal.

In 1661 the Stockholm's Banco issued the first bank note
It was a short lived thing though as it did not get the Traders vote,
But in 1695 the Bank of England went and did one of its own
A hand written piece of paper that could be used as a loan.

By 1745 it became standardised and now came out in print
From 20 to 1000 pounds so no need of coins to mint,
By 1855 they were fully printed and did not need to be signed
The start of Modern Banking had now been defined.

I've mentioned **Merchant Banks** so I'll say just a little more
They provide services to Private Corporations, that's their business core
They generally don't provide for the Public that's not usually their thing
This is where the **Retail (Commercial) Bank** has become the king.

Now the Bank of England was called a **Central Bank**
Not like a Commercial Bank as it was higher in rank,
It was a National Bank that had regulatory and supervisory face
That actually had the power to increase the monetary base.

Originally these Central Banks were got through Royal Charter
Though in the more Modern World that became a non starter,
They were Democracies and had no King on which to dote
So the idea of Central Banking had to be sanctioned by the vote.

I'd like to bring in the U.S.A. an example for to serve
For in 1913 by the vote it brought in the Federal Reserve,
This was not the first one though as there had been more
In fact prior to the vote there had been two Central Banks before.

At the time of the vote the U.S.A. was not that strong
I don't mean it was a poor Country please don't get me wrong,
But on the World Stage it was not the main figure
Though 2 wars were to come along that would give it extra vigour.

The first was started off through an assassination
Though it quickly spread to encompass many a nation,
All the major powers were involved though Britain could not afford it
And so like her rival Germany had to borrow quite a bit.

It took a few years of fighting before the carnage was all done
And millions on both sides lost their lives before the war was won,
Russia fell to Communism, the Austro Hungarian Empire was no more
Though before the U.S.A. became a super power it would take another war.

After the Second World War was over for Britain things got dire
For it had had to borrow from the U.S.A. once again and lost its Empire,
It was now a broken Nation, in debt and needing to rebuild
And the head chair at the World Table the U.S.A. now filled.

We now move forward to 1975 when the G7 came to be
It was set up with a purpose to coordinate Global Economic Policy,
The Seven richest Countries of the World were to be involved
And they hoped to shape a positive future so problems could be solved.

Now in the Book of Revelation **the Beast** is how it is known
Though some would say it might prove useful if you need a loan,
For the Governors of the Countries Central Banks you will find them there
Though I don't think that their interest rates are what you would call fair.

(The Beast as too the Babylon Whore are both part of the Elite
Well that's what they call themselves as they believe their own deceit,
You could also include some large Company Owners, I mean Billionaires
And the Heads of large Corporations who have the largest shares.

Some call these the Illuminati and they're supposed to have a plan
About bringing in a New World Order in which they are the Man,
They also have a modus operandi and if you want to know the score
Check out the Writer George Orwell and his Book called 1984.)

The Beast is championed by **the False Prophet** so you should take care
It might look like a lamb of innocence but you really should beware,
For it is false, just for show, as a devious wolf is more its way
And if you haven't worked it out it's the good old U.S.A.

The two horns that are on its head are actually the same
They both can lead the Country though not with a different aim,
Republican or Democrat they both work for Deep State
They're the uniparty to uphold the Globalist hate.

The U.S.A. is mentioned once again but as the Eighth King
Though really that's misleading as Empire is more the thing,
It actually came from the Seventh, that's Great Britain to you
The Sixth one being Rome, the one that John lived through.

The Five that were before were Empires that had already gone
If I was to hazard a guess I would say that Egypt would be one,
Etruscan, Phoenician, Greek maybe I wouldn't like to say
And why not throw in one from Mesopotamia to clear up the play.

Now interesting enough was that John added a little more
For come to whether the eighth was an Empire he wasn't really sure,
It was yet wasn't yet was, that was what he had written
So with the idea of it being an Empire he was not truly smitten.

So the U.S. as an Empire is a complicated say
For it was not like the others got by the traditional way,
It was got more by subterfuge than actually having to fight
And also taking advantage of the other Nations plight.

It has hundreds of Military Bases or you could say garrisons
And come to military hardware you could say they had tonnes,
Other Counties bow to them and use their currency for foreign trade
So I guess they are an Empire but it was unconventionally made.

Chapter 3 Revelation- Churches, Heaven and Symbolism

So that's the Beast and False Prophet but what about **the Dragon**
Another part of Revelation that should be dwelt upon,
Now the Dragon had Seven Heads and each one was a Sin
And if you were a Gnostic you would believe it lived within.

I will not dwell on it too much but I won't leave you in the lurch
They were already mentioned in the Book, each Sin a Letter to a Church,
He had to purify himself before his Spirit could go up to Heaven
These were the things that stopped his Spirit from getting heaven.

Now the first Church, **Ephesus**, had lost its first love
And if you don't know what that is we're talking God above,
It had lapsed to love of Self, so we're talking **Pride**
And whilst that's in its heart, there God will never bide.

God should be your first love, it's the purpose that you serve
But with Pride about it has took a swerve
No to lose your Pride is a beneficial endeavour
For you can eat of the Tree of Life and then live forever.

Next we come to **Smyrna** who thought that they were poor
Although they were actually rich but had **Envy** at their core,
You see Envy is selective it only sees what others own
If it saw what it actually had then it would never moan.

Should you lose your Envy though you will not feel blue
For there will be a second death and it will have no effect on you,
Just look a little deeper and understand what is implied
It's saying once you lose your Envy you also lose your Pride.

Pride and Envy are the same but in an opposite way
They both put life on levels and keep equality at bay,
We are all the same in the eyes of the Great Divine
Recognise that truly and His love will always shine.

Then we have **Pergamos** and its taste for food
So we come to **Gluttony** as it appears that was its mood,
It ate the sacrificial flesh as it was to its taste
In fact it ate that much of it that it went to waist.

Should you lose your Gluttony your life should start to shine
For you get to eat the hidden manna, that's knowledge of the divine,
Wisdom we are talking about of the Spiritual kind
The only real knowledge that broadens the mind.

(Now Satan's also mentioned and he's an ardent trickster
He actually is Spiritual Anger not the other kind in the mixture,
He tricked the Nicolaitans that God was one of woe
And that to dominate the People was the only way to grow.)

Next then **Thyatira** and its love for the Prophetess Jezebel
It appears that **Lechery** is where they want to dwell,
Not a real good choice as they will lack true understanding
For when you just see the shell life gets too demanding.

Forsake your Lechery and you will get an Iron Rod
Rod being your support through life so we're talking faith in God,
Now as it's made of Iron it means it is unbreakable
So when it comes to temptation you will be unshakable.

Yes forsaking Lechery it will take you far
For after it has gone you will get the Morning Star,
The brightest Star in Heaven, a truly noble trade
Symbolic of the Holy Spirit and it will never fade.

So we come to **Sardis** who has a job keeping awake
For it fell to **Sloth** which is a very bad mistake,
Always be vigilant and keep God in your sight
For He is there to help you in your demonic fight.

Should you lose your Sloth you'll be dressed in white
Symbolising purity you will be truly in the light,
Cleansed of all desire and therefore free of shame
When you look in the Book of Life you'll still find your name.

(It also mentions Seven Spirits so confusion's in my mind
Some say that God is unknowable so that's quite a find.
Though to avoid controversy for which I usually have a flair
I'll be keeping quiet for now as I think it's only fair.)

Then we come to **Philadelphia** and **Anger** has its say
The Synagogue of Satan is not where you want to play,
You might think you are doing well but that is not the case
For God's not one for Anger He has a loving face.

Should you overcome this it will aid you in your search
You'll truly know God's nature so His name you won't besmirch,
Come to understanding you'll get closer to the source
And feel God's loving energy in a greater force.

Finally we come to **Laodicea** and **Avarice** comes to the fore
They thought that they were rich when really they were poor,
They were neither hot nor cold if they could not make it pay
Devoid of financial incentive indifference comes into play.

Should you lose this Avarice though you'll get purity's vote
Quite a good endorsement as you will get a White Coat
Your Gold is now Spiritual, we're talking about Grace
And with all the Sins now purged Heaven shows its face.

So there's the **Seven Deadly Sins**, the ones that taint your Soul
It's these you have to purge if you want to reach your goal,
That's to get to Heaven and find your comfort there
It's really not that expensive, you don't need a Priest's Prayer.

They think that the Book of Revelation was written in 96 A.D.
In fact around this time the movement was still in its infancy,
John was there at the start, he got knowledge from the source
He got it at full strength before it deviated from its course.

(Now Purification of the Soul is only part of the story
You have to also expand your Spirit to truly get the glory,
This is done by Light or Knowledge of the Divine
Through this you climb the Tree of Life and then truly shine.

Well both the things I've mentioned help achieve your purpose
And that's to Evolve to a Man of God when your Ego becomes surplus,
Once you achieve your purpose you find a oneness with the Universe
You truly find your balance and then lose mortality's curse.)

John did not go to Heaven he went into the Light
For Heaven's just a state of mind when you get the balance right
It's when you purify your Ego and become one with every thing
You also get a deeper understanding as you wear God's wedding ring.

Now once John went into the Light he saw a **Sea of Glass**
These were actually **Light Bulbs** and there were quite a mass,
Later on they were glass and fire, something to dwell upon
For it appears that the Light Bulbs seen had now been turned on.

Light you see is Knowledge that will help you spiritually grow
It is portrayed in symbolic form that it is wise to know,
I would like to bring in the **Four Beasts** to illustrate the case
Or you could say the **Elements** if you want their true face.

So the Elements if you didn't know are Earth, Fire, Water and Air
And if you already knew this I'll make you more aware,
You actually see them quite a lot in Esoteric Thought
They have a few meanings so are difficult to be taught.

Aspects of the Self is the first one that you find
Or to put it in Layman's terms different parts of the mind,
The first one **Air** or Spirit is actually your **Spiritual Will**
And God's **Spirit of Life** will also fit the bill.

It is your Father in Heaven or some say Higher Self
It's there to guide you in life and lead you to spiritual wealth,
When your Physical Will evolves to it and becomes a Will of Light
It goes into the Collective Conscious where things are always bright.

Now Air from a Global point of view is the thing we breath
It also helps with the flora so that growth it can achieve,
This has to be regulated though by the herbivore
For we would not survive in an atmosphere too pure.

Too many herbivores though and the airs not pure enough
So we have the carnivore so the air doesn't get too rough,
They actually regulate their litter to the amount of prey
Everything it has to balance as that is Nature's way.

Finally with the Elements the Universe comes into play
It really is the Constellations, the Star Signs you could say,
Each Star Sign has an Element that's attributed to it
And coming to the Air sign three Star Signs would fit.

So Gemini, Libra and finally Aquarius might all fit that place
But the actual one would be the **beast with the Man's face**,
This is **Aquarius** also known as the Water Carrier
And to promote fresh understanding I'll remove the final barrier.

Water is symbolic of your **Physical Will** you see
This is fed by the Spiritual Will until it can break free,
It's God's **Spirit of Wisdom** if you want to know some more
That's the second of God's Spirits if you are keeping score.

Now the Physical Will on its own is devoid of understanding
It needs another aspect to come along to make life less demanding,
Think of it as a pedantic mind without Imagination in its team
One that lacks the Fire to turn Water into Steam.

Another thing about Water is that it just sticks to one level
And it can get clouded by material things and tempted by the Devil,
It hasn't the Imagination to see past the shell
So it rationalises with stereotypes and makes this World Hell.

Well Water from a Global point of view you will know as rain
It falls on Earth to nourish the soil or else to Rivers to drain
Then it heads off back to the Sea to be heated by the Sun
From which Clouds come to be and then we have a re-run.

Now we go to Water as a Star Sign and we have another three
That's Cancer, Pisces and Scorpio but **Scorpio** is the key,
It is associated with an **Eagle** as it sees the bigger picture
(That's only when the Spiritual Will comes into the mixture)

Next we come to **Fire** or you could say **Physical Self**
It promotes your understanding when it's in good health,
It's God's **Spirit of Insight** that helps you look within
A handy mental tool when Self Development kicks in.

It's also your imagination so that you can see beyond
You can see the bigger picture and from it your faith gets strong,
When in balance with your Physical Will you evolve to your purpose
And all your negative thought forms tend to become surplus.

Now Fire from a Global point of view you know as the Sun
It promotes Photosynthesis so plant growth can be done,
It's could be called the basis of life as that also would be true
For nothing would exist without the flora its light grew.

Well onto Fire as a Star Sign and there's another three
There's Aries, Sagittarius and **Leo**, an easy one to see,
For one Beast was a **Lion** so not that much to say
So we'll move on to the next one to finish off the day.

And to finish off there's **Earth** and we get to the Soul
Also known as the **Spiritual Self** which is our evolution goal,
It's God's **Spirit of Knowing**, it's you when you are pure
And come to reincarnation you won't come back any more.

The Soul will try and guide you so you remain on track
It's the thing that gives you guilt when on it you turn your back,
When it comes to sinning it's the thing that makes you pay
For it knows you'll just stagnate and never evolve that way.

When you do a selfless act though it becomes your friend
And you will feel uplifted for those feelings it will send,
It controls the emotional lift that you get from doing good
This is the thing that rewards you for doing what you should.

Earth from a Global point of view helps the flora grow
And it gets replenished when death becomes your foe,
Nothing is ever wasted as your shell goes back to Earth
Don't worry too much about it as your Soul then has rebirth.

So Earth as a Star Sign you have Taurus, Virgo and Capricorn
And only one beast left and so just one more thorn,
The last Beast is an **Ox** though some say baby bull
That just leaves us with **Taurus** and then the list is full.

Finally on the Beasts, they each had six wings
These were there to emphasise that they were spiritual things,
Also they had many Eyes, too many in all fairness
But don't worry it's symbolic, it means a higher state of awareness

So that's the Four Beast so next the **Seven Lamps of Fire**
Four we've already done so you're nearly out the mire,
These are the **Spirits of God** which I have mentioned before
But don't be too downhearted as there's only three more.

Well the first one to dwell on would be God's **Spirit of Love**
Also called the **Holy Spirit** symbolised by a Dove,
It is this that feeds your Soul so that it will know
It is actually pure Light so from this the Soul will grow.

So the next one on the list is God's **Spirit of Understanding**
It's part of the **feminine force** if that will help you with its landing,
It actually is part of a triad along with Love and Knowing
This gives your words more bite as much deeper you'll be going.

There actually is another triad that I neglected to mention
It was not deliberate and confusion was not my intention,
This is the **masculine force** with **Wisdom** at its head
Then also Life and Insight to put the triad to bed.

Now these Six Spirits I have talked about actually serve a Lord
And that's God's **Spirit of Purpose** you could say His sword,
Not only does it contain them, it actually gives them life
Together they make the **Creative Spirit** if that will aid you out of strife.

The Mother Father Spirit is also another name
Either one will do as they are both the same,
If you want to picture it a **Taijitu** comes to mind
Though you might need elaboration to help you with this find'

Think of the **Triad of Wisdom** as the Circle's White side
And the Red part of it where the **Triad of Understanding** will bide,
The White dot on the Red side is the Spirit of Life
This activates the understanding if that gets you out of strife.

Now the Red part on the White side is the Spirit of Knowing
For knowing Wisdom gives it Life and helps you with your growing,
Masculine and Feminine fused together in perfect harmony
That was the figure that sat on the throne, more knowledge you see.

Finally there were **24 thrones** to finish off the scene
On each one there sat an Elder who on purity was keen,
Dressed in white with Golden Crowns they really looked the part
So now I've given all the details we can make a start.

Some say that they were Temple Priests, each one to a man
This was a privileged role that was bestowed on the Levi Clan,
The Temple though was destroyed twenty years before
I don't think that that was relevant so I'll say no more.

No if it was in the Light it would have an Esoteric meaning
That idea though Spiritual has a more Religious leaning,
I'm afraid that Religious adoration comes mainly from entitlement
It really has no place in your search for Enlightenment.

So anyway twenty four although it's actually twenty three
These are steps in Spiritual evolution with Light as the key,
First though another triad to set this thing in notion
That's the **Triad of Purpose** and it gives your spirit motion.

No the Triad of Purpose is about perceptions of the Divine
And is more concerned with the strength of its shine,
Love in the purest strength is when it is most strong
Though pick **Anger** or **Pride** and then you have gone wrong.

Now Anger is misguided Love if that will help you in the case
It's when you think that God above has a nasty face,
Fire and Brimstone we are talking and a craving for war
He's actually the devil in disguise as he's Satan at the core.

Next we come to Pride which is actually self love
You are a god in your own mind as He's come down from above
Some say a Messiah Complex when at its most extreme
And then to a lesser degree the leader of the team.

To truly evolve you must lose both your Anger and your Pride
And they both take 12 steps before they lose their chide,
Well that's not strictly true at the 12th step they merge
So it's actually 23 steps before they both converge.

Each step that you take is a level of Spiritual Attainment
And it's done through understanding what it actually meant,
Try to imagine two books each with eleven blank pages
And each page that you fill is one of the stages.

So we'll start off with the first book and the first page
This is the one that will help to subdue your rage,
I'll give some explanation to make the point safe
And the actual point is '**Logic is the ultimate in faith**'.

Reality as we know it is just what can be seen,
Your mind reacts accordingly and from it can grow keen,
Perceived reality though is a little more demanding
It works more on conjecture and your understanding.

Now the understanding that I mean, I guess you'll call it faith
You believe in this conjecture for your logic's made it safe,
You've rationalised the situation and brought it into range
Though sometimes to explain it, you would sound a little strange.

It actually has a basis and so you would not call it blind,
It can also have the effect of broadening your mind
For it works on inner knowing and experience Divine
And wisdom understood so the Light may truly shine.

The first page now completed, you understand your faith
And from this you will grow for now your logic's safe.
So next we'll talk of direction for life needs to have an aim
You need to have a purpose otherwise you fall to shame.

The purpose is important of that have no mistake
It channels your direction and without it life is fake,
You'll run around in circles and Fate will be unkind
You'll become a headless chicken, hardly peace of mind.

Follow that purpose though and you'll find your inner peace
For the void that is inside you will surely have to cease,
You will find contentment and rarely be annoyed
For you realise that **'without direction you are void'**.

Another page completed, looks like you're doing well
You need to have a purpose for it takes you out of hell,
Now to truly understand that is the next one on the list
Though I'm giving you due warning there's a demon in the mist.

He's the spirit without purpose, a balance to your Self,
A negative God within if that improves your health,
He's there as counteraction to uphold destructive cause
For Creation needs Destruction it's one of Nature's Laws.

He's put there for a reason, to try and block your path,
He'll tie you up in riddles and jump on every gaffe,
He'll lead you off in circles as direction he does lack
And though he may sound clever his rational is slack.

Now whilst you have no purpose your life is just a void
And he can come to being, he's you when you're annoyed,
Self righteousness is in there too and self recrimination
He'll take every opportunity when it comes to condemnation.

You know him now as anger although Satan is his name,
His purpose it is nothing he's there to give you blame,
Yes without a purpose you have really dropped a clanger
'A self that has no purpose is the domain of anger'.

The next thing on the agenda, we'll talk about frustration
This usually comes about when the mind goes on vacation,
It looks for other things but is generally disappointed
For the purpose that it finds is not the one anointed.

Looking for example you could say a dead end job
You'll get no comfort there though it might pay you a few bob,
You're easily frustrated for it saps your self esteem
It kills you on the inside for it takes away your steam.

So follow the wrong purpose and you're apt to be frustrated
Anger comes to play and your Spirit's desecrated,
You'll tear yourself apart for you know you could do better
But whilst anger holds your heart it makes for quite a fetter,

You'll resent your life as such though you really won't know why
For to truly understand it the anger has to die.
Though should you manage to do this you will find elation,
And come to realise '**Anger is the height of frustration.**'

Another down you're doing well though you should have a care
For the next point on the agenda is all about despair,
Now another word for direction, I guess you'd call it hope
For knowing where you're going tends to help you cope.

You can see the bigger picture so hope is in the air
Your purpose is now set in stone so you'll take your comfort there,
Without purpose there is no hope for you have lost direction
You live life in despair and rarely see the connection.

Now that I've explained it well I hope you see the sense
For a life devoid of hope I guess there's no recompense,
Materialistic relief, I don't suppose there's comfort there,
It will give no peace of mind, it won't combat despair.

So despair leads to frustration, anger at its height
And this makes you impatient, for a purpose you will fight,
You'll strive around in darkness and take up hapless cause
For your True Self wants direction, it needs to follow laws.

With impatience by your bedstead your problems will not solve
You see the trouble with a purpose is it takes time to evolve.
So back to the Book then and the page that once was bare
It will be replaced by '**Impatience**' calling it '**frustration in despair.**'

We will continue with impatience to try and work it out
It manifests as anger though some might say self doubt,
It's very hard to fathom as it comes from deep within
To truly understand it, just think of Original Sin.

Now Abel was God's purpose and when that became suppressed
We found Original Sin for God's purpose had been blessed,
Man went against his True Self, his nature so to speak
And from that act of free will things got rather bleak,

He still kept God's purpose but now it had a void,
And a Spirit without purpose, one that got annoyed,
Now this Spirit caused the guilt, a balance to free Will
And whilst Man defies his purpose that Spirit's never still.

Impatience is frustration brought on by lack of purpose
It's all to do with thought waves that find themselves as surplus,
When you truly find your purpose patience will return
For all that surplus energy will have a place to burn.

You see when you have a purpose then your direction is sorted
And impatience goes away for its no longer courted,
So just by having direction you will lose Impatience's blight
Then you'll truly know that '**Anger**' is '**impatience at its height**'

So onto the next page and just a little word on life,
If you don't know the meaning it will lead you into strife,
I glanced on purpose once before when I said it was to serve
But to get the real answer I'm afraid it'll take more verve.

Purification of the Soul if that will help you in the fight
And expansion of the Spirit so it might get the Light,
Now from the journey comes the purpose the thing you have to find
And from that comes the balance, you've found that peace of mind.

You see your life's purpose is direction to free the God within
Which is a complex inner journey to wipe Original Sin.
When you complete the journey you will conquer all the strife
And finally come to realise that '**Direction is the purpose in life.**'

So we move onto the next page and we come to Love
By that I mean the Spiritual kind sanctioned from above,
A complicated subject so I'll unmask its face
The Love of which I'm talking about is actually called Grace.

Now a by product that comes from Light, I guess you'd call it heat
It lifts your senses, warms the heart and gives the Soul its seat,
It's administered by the Holy Spirit for that's the Spirit of Love
It also brings you inner peace symbolised by the Dove.

So Spiritual love back again, you now have half the story
The rest of it I'll have to tell is how to get the glory,
It's all to do with the Law of Love, a law that can't deceive
Basically all it says is give so you receive

Now this comes down on the Earthly plain as service to mankind
I don't mean the concept as a whole but each man that you find,
From this act of service you receive that thing called Grace
It fills you full of comfort and shows a loving face.

Your life becomes fulfilling in more ways than just one
For you feel the Spirit in you, self doubt has truly gone.
And come to filling pages there is now one more
'Love is the heartbeat of life' it says now you know the score

Well come to pages there's only three more left to go
Soon you'll truly know thy Self and from it you will grow,
We'll dwell upon that topic now so it won't be a bind
For when you truly know thy Self you have that peace of mind,

When you know your Self you find out that you are
An evolving Soul on the Path of Life and with that you'll go far,
Now to truly understand thy self should really be your quest
It's alright knowing what I say but understanding's best.

To truly understand thy self you have to mentally look inside
For that is the place that the Elements bide,
I won't go into them as it would be quite a chore
They are the Four Beasts so we've covered them before.

So finally the Ego that's the reflection of the Soul
And normally speaking one lifetime is its role,
Once it's purified though it need not abdicate
For it then becomes eternal with no need to reincarnate.

Also once its pure in heart you will become all knowing
Heaven now is within you and so you will start glowing,
You shun Material things in life and will never fall to sin
And you know for sure that **'To know thyself is to look within.'**

So on to the next page and we will see what we can find
And that actually is your purpose is a state of mind,
To try and understand that I will bring in a Folk Tale
Only just a part of it as I mean the Holy Grail.

Now the Grail was created for a purpose and that was to serve
That was the only thing it did so from it it couldn't swerve,
It was made from Gold so if a Soul it would be enlightened
Basically a state of mind with awareness heightened.

Now this state of mind was built on spiritual wealth
That actually had a bearing on your physical health,
It brought with it youthfulness and you were very rarely ill
Come to medical healing a very potent pill.

Now people traveled miles for it and saw it as a test
Many men have tried for it, a very noble quest,
Really was a waste but I guess in time they had a surplus
No just remember **'To look within is to know thy purpose.'**

So we are nearly there then there's just one more left to go,
There's not a lot to say really so it should quickly flow,
We'll talk about the Grail once more if you have the nerve
For it's not about the Chalice but the purpose it will serve.

Now to a life of service will be your dedication
But to truly know you Self you need a vocation,
That is your personal purpose to release your self from jail
'To know thy self is to know thy purpose' is the final hail.

Well that's one book down so we will move to the other
This is on the Pride side which we'll hopefully help to smother
The first book was to **Know Thy Self** but that's only half the story
You also need to **Love Thy Self** to receive all the glory.

First I'll dwell on emotional thoughts, the ones that give you stress
They're just mental energy gone to waste that likes to give duress,
The stress that you get from them can stop you from your purpose
Though hopefully with some insight they will become surplus.

The stress which they give you comes only from within
You can actually control it, it's really not a sin,
You're in charge, of that don't doubt, the stress it need not flare
Heed the words I say to you, it will take away despair.

These thoughts feed on ignorance, they like you in the dark
It's the only way they can live, they crave conditions stark,
You sit there on your own and ponder on your Fate
Guided in your ignorance by thoughts derived from hate.

It's just surplus mental energy that's there to sap your drive
And being void of purpose it what keeps the thing alive.
So we come to the first page and this is what you'll find
'Emotional thought is surplus mental energy.' bad for the mind.

So next thing on the agenda will be self consciousness
Quite a complicated thing that I'll now try to address,
Self consciousness in essence is just ignorance of the Soul
You don't know about the God within though you'll take his role.

Now as the Soul is your purpose it leaves a nasty void
The Ego takes it over and self love is employed,
Instead of serving its true purpose it just serves itself
Then you find stagnation and it effects your mental health.

You see yourself as a God but with perceptions truly clouded
For this one's here to rule and in glory He is shrouded,
He's just there to be worshiped and if not He will chide
Basically in essence I guess you'd call it Pride.

So you recognise the God within though only in yourself
Which really isn't beneficial to your spiritual health,
And whilst under this dark cloud your purpose is defied
Until you realise that **'Self consciousness is the domain of Pride.'**

So going back to Pride then and its effect upon your sanity
For pride you see in essence is just mental vanity,
Some might say have Pride in work but that's not strictly true
For never have too high of an opinion in anything you do.

Humility should be the thing so don't ever get deluded
Or the power that comes from high will quickly be denuded ,
For Pride comes from the Ego and through it, it will grow
And whilst you have an Ego you'll never get to know.

Pride in purpose in the true sense you would not call it Pride,
It works upon a different level so from the Ego it will hide,
The Pride you want's humility though that might sound a little odd
But to bring it down to Earth you'd call it Pride in God.

Now when you become Soul conscious you understand your God
For he's actually to act in service not some old uncaring bod,
It activates the Law of Love as I've already said
'Pride is the height of vanity' you could take that point as read.

A downside to a God complex so you might know the score
Is called a victim complex, paranoia to the fore,
Your imagination turns against you and leads you on a dance,
You think everyone's your enemy for it is a sharpened lance,

It goes right through your system, it takes a pessimistic role
In the game of life you play, you've scored an own goal,
Now going back to paranoia we will look a little deeper
You see it comes from Pride in fact it is its keeper.

When you go against your purpose the thing you find is guilt
This affects your paranoia it gives it its lilt,
The fear of getting caught can have a nasty bite
So now you know that **'Pride is paranoia at its height.'**

We'll talk some more of paranoia so you might know its face
See it as it really is and you'll put it in its place,
Paranoia works in darkness, it's perceptions nothing more
So situations understood will drive it out the door.

Just like any Demon it hates to live in Light
So when you understand that you have it in your sight,
It can only feed in darkness for that is how it lives
Recognition is its downfall and it very quickly gives.

Paranoia basically is the greatest threat to your sanity
And what it is in essence well I guess you'd call it vanity,
Think it through, you'll see I'm right I only speak the truth
Vanity and paranoia the connections not aloof.

Looking into paranoia it's surprising what you find
You think they're out to get you, that's going through your mind,
So why should they do you harm, what makes you so good
You don't think that is vanity, well if not then you should.

You're just the same as everyone, you don't stand out in a crowd
So what makes you so special that you crave to wear a shroud,
Look at it with logic and you'll see I've got a point
Paranoia is just vanity you can't even see the joint.

It's just fear of the unknown that fills you full of dread
Then paranoia comes to play for it gets inside your head,
Now that you know this you can put that fear to bed
'Paranoia is the height of vanity' another level fed.

We'll talk of vanity once again and see if it will budge
You never know, it might just go, given the right nudge.
First of all let's think it through, what is it about
It's no good being ignorant just saying it's a doubt.

You'll have to go in further to really find the truth
Take it out from where it is, it's not a God aloof,
Pride is love of self as mentioned before
But now come to vanity there's a little more.

Vanity is self conscious love an effect of Pride
Now you truly know the score it should never chide,
Recognition is its death, it's the price it has to pay
'Vanity is self conscious love' now it should go away

Let's talk about love a while, a many splendored thing
It puts the rhyme in Poetry and make the balladeers sing,
It comes in many forms so we'd best get to the core,
It's seeing your Self in others, I'm afraid there's nothing more.

It might sound Spiritual but I'm afraid that is the core
Try putting it in little boxes and you'll be forever more,
Now when you see your Self in others you recognise this Light
You've removed the mental barriers, took away the fright.

If you're still on the Ego stage you will think that is your Self
I'm afraid that's not the case though so lose it for your health,
Your True Self is your Soul and underneath we're all the same
So seeing it in others will light loves eternal flame.

Now along with this though there's a thing called Grace
It's actually Spiritual Love if you want to know its face,
Activated by an act of service its there to feed your Soul
Just think of it as a reward for upholding your true role.

Another thing with service is you'll find that peace of mind
Your life's turns into love and you'll be both humble and kind,
With vanity it is different though it is more an Ego thing
And whilst you possess it you'll never wear God's wedding ring.

You'll just live in darkness with your true purpose void
So make sure you are humble and purposely employed,
You have a will of Light then for all darkness will depart
And then you'll truly know that **'love's the beating of the heart.'**

Well the next step of the journey is to recognise divinity
Quite a short one really as there are only three aspects of this trinity,
There's Light, Love and Power though I'll go a little deeper
So you'll have no excuse, ignorance won't be your keeper.

Now God's Love is your Light well more precisely it's its heat
It's there to lift your Spirit and give your Soul a seat,
This is the Holy Spirit that you get from Acts of Love
You'll know it by its symbol and that's a white dove.

So next God's Light is His Wisdom, Spiritual in fact
It's Knowledge of the Divine if you want to be exact,
A very potent knowledge, one that feeds the Soul
And also strengthens the Spirit to help it in its role.

Finally we come to His power and that's His understanding
It gives you strength through life and makes it less demanding,
It gives you insight too and guidance from above
Now you can truly know that '**God is love.**'

So it's back to God then and more wind for your sail
Also though I'll reintroduce the enigmatic Holy Grail,
It has a deeper meaning, one that's wise to know
For when you understand this you will truly grow.

Now in the Hebrew Alphabet each letter has a meaning,
It works through all Mythologies and gives them Spiritual leaning,
I won't go into details for time you have no surplus
Basically the **Will knows God** and is **blessed with God's purpose,**

Now divide the phrase into two for each one has a part,
So I guess that will knows God is where we will first start,
This is the wisdom side or you could say God's Light
Guess you'd say the theory and you would be right.

Then we have the practical side as God's purpose needs to be
And the only way to get God's purpose is service you see,
Now without God's purpose I'm afraid God could not exist
It's this that gives Him life so is top on His list.

To put it in a nutshell for those who aren't quite seeing
The essence of its purpose is the essence of its being.
So without a purpose He would just be surplus
Now you truly know '**God exists to serve a purpose.**'

So it's back to God then and there's just a little more to do
Hopefully confusion will be gone by the time I'm through,
First thing that I'll do is to bring in another name
God's self through God's purpose though **Abel** was his fame,

Compare him to the Grail and that should put you wise
For both of them say the same thing of that there's no disguise,
Now God's purpose is His being as I'm sure that you must know
So let's take it a little deeper and from it you will grow.

Now God's purpose is to serve so that sounds more like an act
It's more to do with doing if you want to be exact,
If you take the Grail as God you have an enlightened Soul
Its purpose is to serve so that must be its role.

Just to clear confusion about an earlier fact
God's the one who serves, He is not the act,
Serving is an act of God for it upholds its purpose
Just think it as a job and that should clear all surplus.

So putting it together God is an enlightened Soul
Whose purpose it to serve and that should be your goal,
Always remember this and from it do not swerve
'The purpose of God is the purpose to serve.'

One more to accomplish and then this book is done
And if you understand this you have well and truly won,
There's nothing much to tell now just a little understanding
Hopefully you'll see the Light and this won't prove demanding.

The book tells you to Love thy Self for that is how you evolve
Though there's a little matter that I must first resolve,
You are not God though God does bide within you
Its an enlightened Soul that you get your life through.

Now although I've said the Soul when you evolve it is your Self
Remember you're the purpose to serve and you'll be in Spiritual health,
Then God will always live within so you'll have an Iron Rod
Just keep in mind to **'Love thy self is to love thy God.'**

So the final step and that's the mergence of the two
Then you will be enlightened by the time I'm through,
The first book Will knowing God cleanses the essence
It's the **G.R.A.** if that makes any sense.

The second book I gave you is more the nature side
Blessed with God's purpose once your Soul is purified,
That actually is **LL.** do I need to spell it out?
Well perhaps a little more as there might still be some doubt.

Now God is an enlightened Soul and the Word is its purpose
That is you by the way when your demons become surplus,
God and the Word become God's Word after evolution
'To know thy Self is to Love thy God' is the actual solution.

That's the Symbols up in Heaven, well I should say the Light
Knowing them and understanding them should make you pretty bright,
It seems that knowledge like this actually feeds the Soul
And gives you true direction of your evolution goal.

This knowledge is called wisdom, spiritual to be exact
It doesn't go to the Intellect that has to be a fact,
It's more the imagination's side, you could say the Self
This keeps it creative and in the best of health.

Now come to understanding you have had a healthy pour
Though I'd like to dwell on Symbolism just a little more,
You can find them everywhere they're a very potent thing
It seems that with the subconscious they have a powerful ring.

They transcend every language as they're a language in its self
And by actually understanding them you unlock Spiritual wealth.
Take the Symbol of **Infinity** which is a very Ancient Sign
With the **Horizontal Eight** being the Symbol's design.

It's **Symbolic of Precession** if you want to know the truth
It's not really that difficult, understanding's not aloof,
I will take it a little deeper so you might truly know
For understanding symbols is the only way to grow.

Time on a grander Scale is measured by the Age
Each one last 2,000 years and then you turn a Page,
You go right round the Zodiac and then you start again
This goes on for Eternity, Precession is the name.

So what actually is Precession then, its Universal time
The Lunar Month, the Solar Year, it's the next in line,
It takes over 26,000 years so it's done in Stages
Each one lasts just over 2,000 years and we call them Ages,

It's the Sun's projected Journey through the Constellations around
We call them the Zodiac so the answers quickly found,
The Symbol actually works like Two Spinning Reels
Each one turns the other like a couple of Wheels.

The Larger One is the Ages if that will help you cope
And if you want their Names just read the Horoscope,
The Small One has the Attributes which are the Elements
Air and Earth, Fire and Water if that makes any sense.

Looking for an example Aquarius you will find
It's an Air Sign and effects that aspect of your mind,
The last age was Pisces which was a Water Sign
And if you want to finish there well with me that's fine.

Now the **Caduceus** is another Sign you might find appealing
Found in many places it symbolises healing,
First recorded in Mesopotamia almost 5,000 years ago
It's a strange design, one that you should know.

Two Snakes entwined a Winged Wand crossing at Four Places

And come to hidden meaning it has three distinct faces.
So then the Caduceus in essence what is it all about
It has so many meanings though it leaves you stuck in doubt.

Now the First of the three meanings concerns the Elements
The Snakes are Fire and Water, entwined in the Conscious sense,
The Wand symbolises Earth and the Wings they just mean Air
So that's the First meaning over, the Seconds almost there.

It concerns the Life Forces with Spiritual the Winged Wand
The Snakes are Masculine and Feminine so we'll quickly move along,
So finally the last meaning and the Chakras come into play
The merge of the Life Forces if that will help you on your way.

The Wand's Head is the Crown and the Wings become the Brow
The Snakes' Heads are the Throat, is it any clearer now?
One thing before I move on though I won't dwell on it too much
When you do Reiki Healing the throat Chakra you don't touch.

The Four Points that they meet just finish the case
They're the Heart and Solar Plexus, the Abdomen and Base.
So go on then why not have a guess and tell me if you can
For when you put it all together what you have is **Man**.

Now I mentioned the Hebrew alphabet if you may recall
And gave a few examples so you may as well have them all,
I won't say how I worked them out yet, it would take too much time
Besides it would be a hard endeavour as its also got to rhyme.

I will give you the Alphabet though, pursue it at your leisure
You will truly be amazed when you uncover its treasure
In the next Chapter we will glance at it once more
First though here's the Alphabet so you'll know the score.

a	aleph	ox	God
b	beth	house	self
c,g	Gimel	Camel	Will
d	Daleth	Door	Transformation
h	He	window	spirit
u,v,w	vau	nail	Love
z	zain	Sword	Mind
ch	cheth	Fence	Spiritual Will
t	Teth	serpent	Wisdom
i, j,y	Yod	Hand	Blessed
k	Kaph	Palm	Work
l	Lamed	Ox goad	God's purpose
m	Mem	water	Life
n	Nun	fish	Light
s	Samekh	support	Understanding
o	Ayin	eye	Seeing
p,f	Pe	mouth	the word
x,tz	Tzaddi	fish hook	Insight
q	Qoth	back head	Soul
r	Resh	head	Knows
sh	Shin	tooth	spiritual understanding
th	Tau	cross	spiritual wisdom
e		could be either through or and,	

Chapter 4. The Tree of life and the Levels of Understanding

Now the **Tree of Life** is best known in Hebrew philosophy
Though you actually can find it in most mythology
If you eat the fruit of it then you will never die
For with the goodness it contains you'll never say goodbye.

Well the Tree of Life has 10 nodes which are called Serifot
There actually is an eleventh although its not mentioned a lot,
These are joined by pathways there's 22 in all
And once you get to the top (Kether) to death you'll never fall.

So there are 33 stages that you have to climb
And this is actually done by Knowledge of the Divine,
If you want comparison just think of Freemasonry
For each one of these stages is called a degree.

So that's one of the Tree of Life's meaning but it's only half the story
You need to know the other to get the rest of the glory,
The Tree of Life's other meaning you might find surprising
It's actually used in Genesis for the knowledge its disguising.

Should you eat of the Tree it will fill you with elation
But before I get too involved we've **the Six Days of Creation**,
These are just markers for that self same Tree
To truly understand them just think One, Two, Three.

The First Day is a Passage the Second Day is Two,
The Third Day is Three Passages does that leave a clue?
The Fourth Day becomes One again, Fifth is Two then Three
Put them all together and they look just like a Tree.

Now the Passages are Genealogies and hidden in the name
Is the knowledge that you're seeking to light the Eternal Flame,
So back to the First Day then God said '**let there be light**'
Eden and its Rivers if it will help you in your plight.

(It also could be Adam with Eve and their offspring
As both of these passages are on about the same thing,
So **God's transformation (God's life and love through)**
Then what you get from it is the next thing to do.

Well first you get a **Will of God (blessed with light)**
Just think of **Cain** and you will be alright,
Then **Understanding (through Spiritual Wisdom)** next
We're talking **Seth** before you get too vexed.

And to finish off well there's just one more
Which should be easy as its been done before,
That would be **Abel** if you can recall
God's Self (through God's purpose) so that's them all.)

Then God **divided the Waters** would be **Cain** and **Seth**
It could have been Abel but he had met his death,
Then you have **Grass, Herbs and Fruits** or **Japheth, Ham and Shem**
And as Day Four is an expansion **Shem** repeats again.

So Shem is repeated twice though one of them has ages
A thing that over time has baffled many wise sages,
Quite a little quandary that gave a lot of people stress
So whilst I'm here I would like to chance a guess.

I'm guessing that the ages were there to differentiate the two
Because over generations one of them might not get through,
The passages although different sound pretty much the same
So one might be thought superfluous and took out the game.

I hope that makes sense as it's the best that I can do
Though there's another set of ages of which I have no clue,
We are talking about Adam, a Red Herring I would guess
I'm not really that interested though I really must confess.

Day Five is an expansion this time **Fowl and Fish**
Just think Cain and Seth if it will help you with the dish,
Nahor to Rebekah and the **Sons of Abraham and Keturah**
Leaving us Day Six and a purer aura.

God brought forth the living Creature, Made Man in His image
And finally **He blessed them**, not that much of a scrimmage,
So you have the **Generations of Ishmael**, the battle's nearly done
All that's left is **Jacob's Sons** and **their Sons**, you've won.

Well the first day I will give you as I'm pretty kind
It will give you some idea of what there is to find,
It is quite difficult I'll admit but with patient understanding
You'll get a lot of joy from it and won't find it too demanding.

So the Rivers that run out of Eden I guess we will start off there
There's only actually four of them so take your comfort there,
There's **Pison** and **Gihon** and **Hiddekel** as well
Then you just have **Euphrates** so no more left to tell.

Through transformation (through Light) **you get -**
The Word blessed with understanding (seeing Light),
The Will blessed with Spirit (seeing Light),
The Spirit blessed with transformation transforms through work (through God's purpose) **and**
through Love the Spiritual Word knows God's Wisdom through understanding.

So first then we have Eden what does it actually mean
We'll hunt out the answer well if you're still keen
Through transformation through light that is what you'll find
Though we will probably need to get it more refined.

Now this transformation is actually called Enlightenment
And it is done through Light that's been Heaven sent,
To transform the Soul is its intention
So bracket it now as its had its mention.

Now from out of this Land Four Rivers pour
So what it is doing is telling you some more,
And just in case your reading and still have some doubt
From the transformation mentioned all these will come out..

Pison the **Word blessed with Understanding seeing light**
Bracket the last two words and lose them from sight,
Blessed with Understanding so from darkness you won't cower
For the Words understanding is actually its power.

Knowing it is good but it's only half the story
You have to understand it to get all the glory,
Without the understanding you're still ignorant
You'll say something parrot fashion not knowing what it meant.

So the First River sorted we'll quickly rout
You now know the Word and what it's about,
With this Understanding a deeper meaning you will find
You evolve in balance and have peace of mind..

Next we have **Gihon** bracketed the same way
So Will blessed with Spirit will come out to play,
Your Will turns Spiritual and not just in Name
You now have fully evolved and lost your guilt and shame.

Then there is **Hiddekel** now don't be a shirk
For the **Spirit blessed with transformation transforms through work,**
It's done **through God's Purpose** so no self interest there
A life full of Service with the Holy Spirit rewarding your care.

Finally **Euphrates** which is not too demanding
Through love the Spiritual Word knows God's wisdom through understanding,
Not really a hard job for this phrase to come to ground
Just make sure in life that love is always found.

So then from Enlightenment this is what you've got
You understand the Word so ignorance is no blot,
Your Will becomes Spiritual so Material Wealth you will shun
You transform through work and knowledge, guess you've truly won.

Well that's the first day over there's five more left to do
You will be quite learned by the time that you are through,
I will leave it with you and check out another School of thought
For when you start deciphering your interest's truly caught.

We will take a look at the mystery letters that we find in the Koran
I'll try to keep the verse flowing,(well that's when I can),
They are made with the alphabet by that I mean long hand
So as you can imagine this is quite a big demand.

First a little groundwork though, to help you on your way
Hopefully it should make it easier at the end of the day,
You see some have been repeated so I just use the first one
Though we will hit a problem a little later on.

So in their essence they are the **Levels of Understanding**
Though as I've not told you them this might be demanding,
Not to worry though as I'll explain them as we go
With patient understanding ignorance is not your foe.

**Level 1. Alif lam Mim or God(God's purpose blesses the word), God's purpose(God's life), life
blesses life**

So first we come to the word then and that word is 'Be'
Though it's not life as such it's just existence you see,
A mountain can be but it doesn't mean it has life though
It hasn't got a Soul so it can not spiritually grow.

Now when you're blessed with God's purpose life comes to be
For this animates matter as it needs reason to key,
This is just one of God's Spirits it's the Spirit of Life
The brackets just explain what God is to help you out of strife.

Now God's purpose is it's life so it's bracketed again
That purpose is to Love so that's another Spirit that you gain,
Life blesses Life is just the mergence of the two
Level one is nearly over just a little more to do.

So a being that can replicate, the first level of life
Flora, basic fauna to cut through it with a knife,
That was quite straight forward it was not too demanding
So we'll move to the next one when it gets some understanding.

**Level 2. Alif Lam Mim Sad or God(God's purpose) blesses the Word(God's purpose, God's life) life
blesses life understanding God's transformation.**

So back to the word once again and I'll add a little more
It now has life and love (bracketed so you'll be sure),
To get to the next stage though another blessing has to occur
Done by God(God's purpose) as it will take you there.

God's purpose is bracketed as it's another aspect of love
We're talking understanding so give ignorance the shove,
Life blesses life means a mержence of the two
So there's just God's transformation that we need to do.

Now God's transformation is the journey of the Soul
As it needs to reach its God-head to achieve its goal,
It's done through understanding that is how it will grow
For the journey to the Soul works on what you know.

Understanding at this level is actually just instinct though
But you start to get a memory so you can recall what you know,
Controlled by the Earth Mother through her Natural Laws
It more to do with self preservation than following a cause.

**Level 3. Alif Lam Ra or God(God's purpose) blesses the Word(God's purpose), God's life knowing
God**

From Understanding comes discernment another Spirit fell
God's purpose the first bracket explains that pretty well,
The Word still is God's purpose though now its got more strong
For it has discernment and so knows right from wrong.

The Word now has the power to think for itself
And so becomes like gods with access to spiritual wealth,
This is where Man comes in along with a free will
Quite a dangerous thing when it causes so much ill.

Level 4. Alif Lam Mim Ra or God(God's purpose) blesses the Word(God's purpose-God's life), life blesses life knowing God

So onto Level 4 next which happens the same time as three
For with the Spirit of Discernment another spirit comes to be,
That's the Spirit of Wisdom as you need something to discern
They were both put in place in the hope that you might learn.

Now the Wisdom that I'm talking about is the Spiritual kind
It comes about through knowing God and broadens your mind,
It's bracketed the same as level 2 for much the same reason
Though change Wisdom for Understanding to get the right season.

With Wisdom and Discernment a new aspect comes to be,
You also develop an intellect as your Will is now free,
You now evolve on two levels, thought and memory
Man can now get into school as he has the key.

Level 5. Kaf ha ya ain or Work of God, (the Word), Spirit of God blessed by God, (God's blessed light).

Next to Level 5 the Word becomes the work of God
It means you becomes more charitable and not a selfish bod,
It helps to purify the Soul and lose self consciousness
Well maybe not completely but it will be a little less.

Spirit of God blessed by God is actually God's blessed light
This expands your Spiritual consciousness, it's what makes you bright,
So Divine Service on the one hand and Knowledge of the Divine the other
This will help you climb this level and get you to another.

Level 6. Sad ta ha tah sin mim or Understanding God's transformation, (wisdom of God), spirit of God's wisdom, God's spiritual understanding blesses light, life blesses life.

Now understanding God's transformation is the domain of the True Self
God's transformation being enlightenment from the wisdom of God's wealth
The True Self is the Soul and from enlightenment it gets fed
But there's a little more before we can put this level to bed.

The spirit of God's wisdom is more your spirit's domain
This is on the knowing side though it's on a shallow plain,
Basically it's light although without the spiritual understanding
It really needs the True Self to help it with the landing.

God's spiritual understanding blesses light so that it can merge
So Life blesses Life is when Spirits of Wisdom and Understanding converge
This happens out of body after the Soul has become pure
It happens when you are asleep so on that I'll say no more.

Level 7. Ya sin or Blessed by God, (understanding blesses light)

Well Level 7 blessed by God, and a shift in consciousness comes about
And believe me it is scary of that you should have no doubt,
It happens not long after Level 6 in fact so use that as a gauge
But not to worry really as it means you've nearly come of age.

It's actually when you meet your maker as your old self dies
But take good heart from this for through it you get wise.
You see when you meet your maker you get true understanding
You look at life a fresh and it seems less demanding.

Level 8. Saad ha mim or Understanding God, (God's transforming spirit), God's life blesses life

Onto Level 8 then and in life you are still growing
You've just got another Spirit and that's the Spirit of Knowing,
This actually comes hand in hand with the level before
You see when you lose your Ego you open heaven's door.

Now Understanding God transforms the Spirit of Knowing
You see understanding God's wisdom is the method of its growing,
It's from the mergence of two Spirits that give a conscious shift
When your Ego becomes surplus and you receive this gift.

Level 9. Ha mim ain or Spirit of God's life blesses life, (God's blessed light)

So the spirit of God's life that blesses life is actually the Spirit of Purpose
It's a triad you may recall with two of them being surplus,
Pick the wrong purpose though and you will stagnate here
But as we have covered that before you can move on without fear.

Before you do though there's a little more to say
For you need true understanding to really make it pay,
You are the life that the Spirit of God's life has blessed
You are now God's blessed light you have now passed the test.

Level 10. Sin or understanding blessed light.

Now we get to the problem that I told you all about
But with understanding we can quickly rout,
You see this was Sin' Qaf but don't feel cheated
For the word Qaf is actually repeated.

If it was on a separate line then you would only see one
For as it was a repeat it would be quickly gone,
So they put it on the same line as the one before
Though put in an apostrophe so you would know the score.

Now Blessed Light is Loving Spiritual Wisdom or wisdom at the core
This purifies the Ego's negativity if you want to know the score,
That's the emotional pain accumulated through the suffering you had to endure
You are actually reading it right now so I will say no more.

Level 11. Qaf or the Soul, God, the word.

The Soul is a transformer that's there to help you in your growing
It transforms both wisdom and understanding of wisdom into knowing,
They say that the Limbic System is where it has its seat
And basically the Light you get it turns it into heat.

God is your understanding located on the right Brain's hemisphere
And the Word or God's purpose holds the other side so dear,
One is the Wisdom the other ones the Understanding
Whilst the Soul is the knowing, that's not too demanding?

Level 12. Qaf or the Soul, God's word.

When you understand your purpose two become one
You can truly serve your purpose as all self doubt has gone,
You are at one with your Self for you share the same goal
And as you are now fully transformed you are an enlightened Soul.

Now the levels of understanding we will talk about some more
You'll find them in most Mythologies, in fact they are the core,
The 12 labours of Heracles that's just one example
Or the 12 sons of Jacob which I will now sample.

Jacob actually stands for **Blessed with God's will seeing self**
Each level is a different strength of Spiritual Wealth,
The higher the level the greater the strength will be
If ignorance is an ardent lock you now have the key.

So **Level 1** we come to **Reuben** or **knowing and love (self through light)**

Now knowing is the mind's life if that will help you in this fight,
With the Spirit of Life you are just what you know
The flower knows to head to the light so that it will grow.

This knowing that I've mentioned is also called Light
It's actually Spiritual Energy if that will aid your plight,
Now the stronger the energy the more refined the mind
Self through light in brackets (I'm just adding to the find).

Well along with the Spirit of Life the Spirit of Love is there
The flower needs to reproduce so love is in the air,
It's all to do with evolution as that is the theme
Everything has to find its place in the natural scheme.

Now in **Level 2** we come to **Simeon** and this is an easy fight
Understanding blesses life (through seeing light)
Speaks for itself really so I'll just leave it there
We'll move on to another one as it's only fair.

Then we come to **Level 3** and **Levi** to continue the play
Or **God's purpose through love blessed**, if you want the longer say,
Love blessed in this sense is understanding blessed
Which actually is insight if that will help you in the quest.

You get God's purpose through insight as you have to look within
Before you have insight you couldn't recognise a sin,
You did not know right from wrong and neither could you think
So from the font of wisdom you could never drink.

(Now insight in the Alphabet has the symbol of **fish hook (X)**
So it might be in our interest to take a deeper look,
A fish hook hooks a **fish (N)** so **light** has been won
Just think of a fish darting in the River lit up by the Sun.

Well on the subject of insight I would like to carry on
And give you two more letters to prove its not a con,
Before though another reason and that's A is the first letter
Everything after comes from it but the next reason is better.

Now **A** stands for God with a symbol of an **Ox**
Could be **seeing insight** if you think outside the box.
For knowing good from evil makes you lucky bods
As in Genesis it states that you will be like Gods,

Well **L** is **Ox Goad** this is what gives God reason to exist
It guides you through life and make sure nothings missed,
When you have your true purpose you have fully grown
And realise that in adversity you are not alone.)

In hand with Level 3 we also have **Level 4**
And we come to **Judah** though you'll want to know some more,
Blessed with loving transformation (God's spirit).is what it said
And God's spirit is the Spirit of Wisdom so put that point to bed.

Now the loving transformation is the Transformation of the Soul
And this is done through wisdom as it is made for the role,
Though this wisdom has to be understood to really make it pay
And that's when you find discernment comes into play.

So onto **Level 5** then and **Issachar's** there to fit the bill
blessed with understanding (understanding God's will)
spirit of Gods knowing.to finish off the his name
For to leave it half done would be a real shame.

First we have blessed with understanding an easy one to do
It's understanding the Word of God if that will help you through,
Then we have Understanding God's will which is more to do with mind
So it's a journey on two levels, well that's what you will find.

Then the Holy Spirit or the Spirit of God's knowing
This is what transforms the self and helps it in its growing,
It's activated by the Law of Love as mentioned before
And is got through selfless acts with service at the core.

So we have a journey of the Self with knowledge half the story
For you also need Divine Service to really get the glory,
And too you spread the word for that helps you in your quest
Makes sure that you are humble though for then you're at your best.

Then next on **Level 6** we have **Zebulun** and victory is in sight
For **mind through self of love (God's purpose blessed with light)**
It talking about the merge of Wisdom and Understanding
Not a lot to say on this as it's not too demanding.

So next then **Level 7** that comes along with **Level 8**
And we come to **Joseph**, you know the Pharaoh's mate,
Blessed seeing understanding through the spiritual word
A shift in consciousness when your old self gets the bird.

You now have the understanding which gives a deeper insight
To put it in layman's terms you are now a brighter light,
A deeper understanding that will give your words some clout
You know what it is saying and what it's actually talking about.

You get this understanding from the Spirit of Knowing
An open channel to the Divine to help you in your growing,
You will know it as **Benjamin** and it will aid you in your fight
Self through light (blessed by God's life blessing light).

Now God's life is the channel mentioned once before
It's actually a Spirit that comes to the fore
And as you are the light by that I mean your Soul
You get the Spirit of Knowing to help you in your role.

So onto **Level 9** and next we come to **Dan**
Looking for a purpose I guess he is the man,
It means **transformed to God's light** and there is a choice
Pick the right one and you'll have a loving voice.

Pick Love as your purpose and you move to **Level 10**
A deeper understanding and I mean yet again
Each letter is a word and this might sound absurd
But what I'm talking about is the **light of God's spiritual Word**

From this deeper understanding you really come out best
For you get (**wisdom of God (God's purpose) blessed**),
This is found in **Naphtali** and really is the key
You will get a deeper understanding from everything you see.

Level 11 and the final step a **Will of God transformed**
You are now **Gad** and you're also fully formed,
The outcome (**Level 12**) is **Asher** and there is no more growing
For it actually means, **God's spiritual understanding (through knowing).**

So that is Jacob's sons but what about one more
It's the Kabbalah Tree of Life, well actually the core,
We're talking about the Serifots that you have to climb
Though I'm giving you due warning it's a rocky time.

Some changes in the spelling but that might just be neglect
And one mixed with another which I think a bit suspect,
It might be in the trade what they call an Occult Blind
Moving things around to make them harder to find.

When I come across them I will point them out
And if you agree then we both will have no doubt,
Compare it to the other trees if you agree with half a heart
Anyway I'm rambling we'll just make a start.

So we'll start with **Malkuth** and reveal its glory
Life of God, God's purpose, but that's only half the story,
(Work of loving spiritual wisdom) to finish off the name
I couldn't fit it on one line I admit it to my shame.

Now the last part is bracketed not because its surplus
It's actually a good description of what we call God's purpose,
Well God's purpose is to love as I've said before
Though I'm feeling generous so I'll elaborate some more.

On a spiritual level loving spiritual wisdom creates life
And that is what the Soul is made of if that relieves the strife,
But on this level it is the ability to recreate in the physical sense
We call it the Spirit of Love if that's any recompense.

So next we have Life of God which is easily worked out
Put them both together and you know what it's about,
The mergence of Life and Love we call this **Level 1**
No sense only purpose there now you've truly won.

Next we come to **Level 2** as we need some understanding
So we come to **Yesod** and you won't find this demanding,
It stands for **blessed through understanding (seeing transformation)**
I suppose I had better elaborate so I don't fall to condemnation.

The blessing is by a transforming Spirit so the brackets do apply
For on this level Life and Love need Understanding to comply,
Though basically at this level Paranoia generally leads the way
Though it has its seasonal instincts that come into play,.

Actually on this level I would like to take a pause
And maybe talk a little about about a thing called **Natural Laws**,
Now we all have to physically evolve to a purpose, find our place in the scheme
And there are Laws in place to help us with this theme.

To evolve to our purpose I guess that ones the main
Though it may take many lifetimes before we make this gain.
We have to survive in the meantime and three laws come to be
And three more in recreation for in evolution that is key.

First we'll start with life and it's all about keeping yourself alive
These are put in place so that you may survive,
Though all the laws are tailored to match your capability
Each organism is to be adapted to the best of its ability.

The first is **to survive in the climate that's around it**
You see it best when the winter season makes its annual hit,
Some creatures turn nomadic whilst others hibernate
Basically get out of the way until it does abate.

The second is **to survive in the habitat around it**
Camouflage, nocturnal hunting what ever they see fit,
And finally **to survive in the social climate** too
We're talking herd mentality if that will see you through.

So the next Laws we come to are to do with species evolution
Firstly though **to attract a mate** is the best solution,
Then you have **to defend and hunt** to keep that mate from any rival
And finally **to give your offspring the best chance of survival.**

So Seven Laws I've mentioned and only one more left to go
To find your niche in the Eco System now that's all to know,
You should actually recognise them for in you they're still alive
To put it in a nutshell it is your instinctive drive.

So back to the Levels then and we come to **Level 3**
This is one I've told you about so you'll have to bare with me,
The actual word is **ZachHod** and it's took from two
Though they've brought in another one to make the total true.

You see there are ten levels that you climb to reach the top
Though on the Kabbalistic diagram there's another serifot
This one's called Daath but I'll come back to it in a while
I like to keep thing simple as confusion's not my style.

Anyway we'll carry on after that little vacation
Mind of God's spiritual will (spirit seeing transformation)
Another transforming spirit and this time the Spirit of Discernment.
The mind of God is the ability to discern, that's what Genesis meant

You are now no longer controlled by Instinct you have a free will
Though at the lower level it controls you still,
It's done through emotions and still has a powerful pull
For free will brings self awareness which you need to cull.

Well Level 3 as you know comes in with **Level 4**
And that blip I told you about carries on some more,
Though with further thought it might just be a sign
Maybe it was put in place actually by design

You see the next sefirah we come to is called **Tiphereth net**
The **Net** should not be there though that was where it was set,
You see Netzach and Hod were two distinctive nodes
I'll have to stop it there though as confusion I have loads.

So anyway Tiphereth Net if it will help you in your growing
Wisdom blessed with the spiritual word and knowing
Through spiritual wisdom (light through wisdom), phew
I'm glad I wasn't holding my breath as that's a lot to get through.

So knowing through spiritual wisdom is your spiritual will
And this is what gives you light so that bracket you can kill,
Wisdom blessed with the spiritual word is more the physical side
With Wisdom and Discernment your world's now open wide.

You're in the realms of intellect a real beneficial prize
For with these two new Spirits you're going to end up wise,
You also have self consciousness, a boon to mental health
For the mind can only grow by relating things to its Self.

So next we get to **Level 5** and another carry on
For we have **Ed Gebirah** but the Ed is from another one
It's actually down as Chesed when it really should be Ches
But I'm not one to grumble I'll just clear up the mess.

Through transformation will and self blessed with knowing God's spirit.

(Really hard to get a rhyme I don't think I could come near it)
Through loving knowing of God's spirit both will and self evolve
This Level is the journey to help you problem solve.

It's done through knowledge of the divine and service to mankind
It's the start of enlightenment to which before you had been blind,
The Will transforms in spiritual awareness and shuns material surplus
And the Self transforms in understanding acting on God's purpose.

So onto **Level 6** and this is really not demanding
We now come to **Ches** or **spiritual will through understanding**,
We are talking about when your Spiritual Will and Self merge
To put it another way when the Spirits of Wisdom and Understanding converge.

So we move to **Level 7** then and **Daath** rears its ugly head
or **transformed to God (God's spiritual wisdom)** to put it to bed,
You have God's blessing and are now an enlightened soul
Your old self has died as he wasn't up to the role.

Now hand in hand with this is **Level 8** and **Binah** comes out to play
or **self blessed with light (God's spirit)** if you want the long way,
You have an access channel to the divine and it helps you in growing
You know things now that you never knew with the spirit of knowing.

So next thing on the list is **Level 9** and **Chokmah** has its say
Or **spiritual will- seeing work, life of God's spirit** that's another way,
God's Spirit is the Spirit of Purpose and it gives your life true zest
Though it could go one of three ways so make sure you pick the best.

So then we come to **Level 10** and **Kether** shows it's face
Work and spiritual wisdom through knowing, you have won the case,
The culmination of the journey. You are now an enlightened soul
With a purpose to serve, you are well up for the role.

So **Level 11** now and **Ain Soph Aur** though to call it a level is absurd
God blessed with light, understanding (seeing) the spiritual word,
God's loving knowing. then to finish off the phrase
So now for some elaboration to clear the ignorance daze.

God blessed with light is the Will if that will help you with your growing
And understanding the Spiritual word gives you God's loving knowing,
The first one is knowledge of Self that you've brought back to base
And the other knowledge of purpose to strengthen up the case.

One is the wisdom and the other its understanding
To actually call it a level though is a little too demanding
Think of it as the Grail though not quite purified
Still some cleaning left to do before it can truly bide.

The journey that you been on has now come to an end
Now it's time for rest and healing so that you can mend,
The emotional turmoil you've been through has taken its toll
And you need to regenerate to get strength to carry on your role.

Finally we come to **Ain Soph** or **God blessed with light**
(understanding seeing the spiritual word) to finish off the fight,
Basically what you now are is the purified grail
The ship is now seaworthy and ready to set sail.

Think the journey's over well I'm afraid it's just begun
You are now an enlightened Soul always heading to the Sun,
Light you see is infinite so there is never an end
You now have to spread the word so go and tell a friend.

Chapter 5. Revelations- Seals, Trumpets and Vials.

We'll talk of Revelation and the Elements come to play
The **Churches** were the **Earth** side but they've now had their say,
The **Seals** are from the **Air** sign and these we've about to do
So with patient understanding you'll be wise before I'm through

Well anyway the **First Seal** as we may as well make a start
And with what I've got to tell you it should lighten your heart,
Talk of the Four Horsemen might have filled you full of woe
But when you get the true meaning your fear will probably go.

They have been misunderstood but hopefully that will change
So I will give the true meaning to bring it into range,
Well anyway with the Seals in Revelation symbolism is in play
The First Seal rode a White Horse that had purity in its neigh.

That is what carried him or a Loving Spirit you could say
So he could not fall to temptation and be led astray,
Now he also had a Bow to aid him in his fight
So anyone that crossed him would soon be put to flight.

He could fight at a distance so his chances were real bright
What it's actually saying is that he had insight,
Lastly there's the Crown and to some this might inflame
For this means that he is real and has an actual name.

He is the **Word of God** know him by his fame
And he is there to conquer as that is his game,
The **Second Seal's** another Horse only this time it was Red
It still is your Spirit although it's Anger now instead.

This is what carries it so take this thought to bed
You'll never get peace with it, not until you're dead,
Its Rider had a Great Sword and here is what you find
What it's actually saying is that war was on its mind.

Devious in Nature and one that's never kind
For I'm afraid to empathy it's well and truly blind,
It did not wear a crown though so it did not exist
By that I mean as a person insanity I've not kissed.

It was just a Thought Form a nasty little twist
It actually is **the Beast** so strike it off the list.
Now in the **Third Seal** a Black Horse you will find
It's a messenger of knowledge of the Esoteric kind.

On it sits Fate and it is always blind
In administrating justice it can be a real bind,
It has a Set of Scales as to balance is its way
What you sow so shall you reap is the order of the day.

It shows insightful judgment and with a powerful say
It will uphold the maxim that crime will never pay,
So we're talking judgment but there's a little more
One last piece of knowledge to finish off the score.

I will not drag it out though for I am not a bore
You will find it is **the Judgment of the Babylon Whore.**
With the **Fourth Seal** broken a Pale Horse appeared
And as it carried death it really should be feared.

Followed close by Hell so soon the path was cleared
Definitely not a thing to which to be endeared,
Now it has the power over a quarter of the land
In which it could kill by its brutal hand.

Also though by hunger should it so demand
And the Beasts of the Earth under its command,
It actually is **the Two Witnesses** if you can believe
And they have the power over those who choose to deceive.

Whether through debate where they'll bring them to their knees
Or though the power to curse which they can achieve,
On opening of the **Fifth Seal** it was time to complain
For John encountered a multitude of People who'd been slain.

For the Word of God they suffered all that pain
And they wanted vengeance on the Earthly plane,
These were given White Robes and told to wait a while
As the World below was still filled full of bile.

There were more to come and I mean quite a pile
So they should be patient and not purity defile,
It's **the First Resurrection** if you want to know the score
When those that suffered death will have a life restore.

So if you suffered for your faith you've opened Heaven's door
Though this will never happen if it's done through war,
On opening the **Sixth Seal** a great Earthquake made its sound
The Sun became blacked out so no light could be found.

The Moon became as blood its light being drowned
And the Stars fell out of Heaven and broke up on the ground,
Mountains left their places and flew up to the sky
And men both high and lowly became afraid to die.

Some hid in their bunkers thinking judgment nigh
Whilst others took to the Hills demanding hue and cry,
It's talking of an Earthquake unheard by Man before
but there's also a **Volcano** with the greatest Lava pour.

The Stars that fell from Heaven were Airplanes nothing more
Clogged up by the dust and thrown down to the floor,
It also mentions Winds well Thermals you will find
For they will disappear with the Sun now being confined.

And finally the multitude of foreheads to be signed
It was just another figment of John's Orthodox Mind,
So the **Seventh Seal** and we have a little time to kill
To let the dust settle so the Winds will not be still.

Well perhaps some understanding and this might fit the bill
They're aspects in the Book the Content for to fill.
So they are a Content List but there's a little more
They are out of sequence if you want to know the score.

If you check them out One's been swapped with Four
Though I will come back to that later in the tour,
(But first some understanding of Revelation's construction
It's centred around the Elements in revealing the eruption.

Also though surprisingly it is a Book of Esoteric Instruction
With Divine Knowledge at its prime hid among destruction.
Well the Elements then, the Churches are the Earth
Then we come to Air and the Seals with John's rebirth.

Finally **Fire** and **Water** an easy one to surf
The **Trumpets** and **Vials** run parallel and with equal worth,)
Now the dust has settled and the darkness gone
There's a scene played out in Heaven that we just dwelt upon.

The Air is purified and once the Golden Censer's done
Its then threw down from Heaven and the Earthquake is back on,
With the Earthquake over **Four Trumpets** come to play
And a third of the Planet lose the light of day.

Its water all gets poisoned and the land is burned away
Four versions of one event to lead us all astray.
(The first **Four Vials** parallel just so you might know the score
Well not quite so as we come back to One and Four.

They've been swapped round on one of them for sure
Just read them out yourself and on that I'll say no more.
Now in Revelation there's a Curse put on by John
Saying that to tamper with it would be frowned upon.

So that leaves one conclusion that you should dwell on
John must have changed it and that conclusion is forgone.
So we'll take a look again we have One and Four
Changed around on two occasions but there's a little more.

The second time could be either and that makes Three the score
So that makes 3.142 which is Pi at the core.)
With the **Fifth Trumpets** sound things aren't looking well
The Volcano has erupted and now we have the hell.

Locusts leave the smoke though there's much more to tell
But I'm giving you due warning that you are going to yell,
Now John though out of time had a very good ear
And sharp descriptive power to portray what he could hear.

Chariots of many Horses though the answer won't bring cheer
For it sounds just like a Helicopter that's bringing with it fear,
I think the Helicopter might want a closer look
The Face of Man and Lion's Teeth seem to have a hook.

Armour plated with Crowns like Gold go check it in a Book
And you will find and to stretch a rhyme it looks like a Chinook.
(The **Fifth Vial** does parallel and from it you can glean
It happened at the Seat of the Beast and so that sets the scene.

Also though repentance with that it was not keen
So it carried on as normal with acts both gross and obscene,)
With the **Sixth Trumpet** roar Euphrates gets a mention
And the Angels get let loose means increasing heights of tension.

The Angels are its Countries so this should get attention
Iraq, Syria, Iran and Turkey though to scares not my intention.
The **Sixth Vial** has Euphrates so there actually is a tie
Only this time though the River has gone completely dry.

So the Kings to the East of it invasion they could try
All defenses down it appears that many will die,
Now the millions of Horsemen and its now getting warm
It's actually the Volcano but in symbolic form.

Fire smoke and brimstone which generally is the norm
Affecting a third of the World with its fire storm,
So next the **Seven Thunders** there's instruction now in mind
It is actually a Mantra repeated you will find.

Pleasant to the palette but leaves with it a bind
For it's a bitter thing to digest that in life you've not been kind,
A couple of things mentioned that you'd be wise to know
One's the **end of time** which might come as quite a blow.

Its talking evolution so don't see it as a woe
More that you've turned Adult and there's no more to grow.
Though it has a downside, you could say a blight
It appears the sperm count has been put to flight.

Its been falling every year although only slight
But as it started in the seventies the futures not that bright,
1.1% each year until the Century turned a page
When it went to 2.6% and so increased its rage.

They say that by 2045 sterility will come of age
And then another hundred years until we get to the final stage,
In fact the birth rate is now falling and has been for some time
And society as we know it, is going into a steep decline.

There will be no one to care when you have passed your prime
So it doesn't look too good for those heading into the end time,
In fact when you look around there's more dying than being born
That it's getting to the stage there will be no one left to mourn.

Yes if you haven't wised up your life will be a thorn
But if you do wise up a brand new age will dawn,
It mentions this in Revelation and Ragnarok does also tell
That some of us will survive this plight and actually do well.

Secondly **the Mystery of God**, that will come to light
You'll have true understanding to aid you in life's plight.
Yes the strength of mind you will get from that insight
And you won't get into trouble as God said it'd be alright.

Chapter 6. The Alphabet Revisited, It's all Greek to me.

So back to the Alphabet I couldn't leave it there
I'll give you some more letters so you do not hit despair,
They are actually quite easy they're not really demanding
And they are a good way to increase your understanding.

We'll start with the Spirits as you've already had two
So there's only another five which we'll quickly do,
You had Insight and Purpose so we'll first go to **Water(M)**
Which is quite an easy one so we will quickly slaughter.

Water is symbolic of **Life** you can take that point as read
Just stop drinking water and you will very soon be dead,
It is essential for all living things on Earth to thrive
Believe me without water you would not survive.

Well next we come to **Love** and it's not just being fond
What we are really talking about is an emotional bond,
It's what holds us together you could say the **Nail (U.V.W.)**
Try and live without it you would probably fail.

Then we come to **Serpent (T)**, that's **Wisdom** to you
Another easy one that we'll quickly get through,
A snake sheds its skin meaning renewal and transformation
Same as Wisdom really just give it some contemplation.

Now we come to **Prop (S)** it's what helps you through life
This is **Understanding** and it is your support in strife,
It gives the bigger picture of life and all its woes
It is also a good shield to what ever life throws.

Finally there's **Head (R)** and **Knowing** comes to mind
For it houses the Brain well that's where it you'll find
The seat of the intellect and consciousness too
So that's the final one, there's no more left to do.

Well as this is Esoteric we are talking about the **Soul**
You will have to think of **Back Head (Q)** as it will help you get the goal,
This is where the Soul is located so that one's quickly done
I will do a few more of the ones that are easily won.

First we'll come to **Eye (O)** and that is easy to **See**
And then of course the **Hand (I,J,Y.)** and then **Blessed** you'll be,
Also too the **Mouth (P,F.)** which is obviously the **Word**
To think any differently would be frankly quite absurd.

Next we come to **Sword (Z)** and the answer's not a bind
For is quite well known as it stands for the **Mind**,
The Mind is a double edged sword a phrase that's often said
So there is another letter that you can put to bed.

Then we have **House (B)** and this one's quickly won
As it stands for **Self** so that's another one nearly done,
The Self is what houses Light you could say its home
Pretty straight forward really, not much of a roam.

So then we come to **Palm (K)** and this you must not shirk
A major part of your evolution as it stands for **Work**,
It was quite an easy one and the answer should come natural
The Party's over now as the last few are quite lateral.

First we come to **Camel (C,G.)** a difficult one to kill
For believe it or not it actually stands for **Will**,
I could call it the Ship of the Desert and use the fact it carries you
But I would like to take it deeper and use a better clue.

Now thinking outside the box like I did with insight
I would like to write it long hand to aid me in this fight,
It actually stands for **Will-God's life through God's purpose**
So anything more to add to that would probably be surplus.

Next we come to **Door (D)** and it stands for **Transformation**
Another lateral one to add to your frustration,
Think of dawn as a doorway between night and day
Or a transformation from dark to light if I put it another way.

So then we come to **Window (H)** or that's **Spirit** to you
This is actually the thing that let's the light come through,
It is also there to filter it for if its too strong you might fall
And let's you think outside your box as you're not blocked by a wall.

Now to finish off, the final three letters you already know
You just have to swap them around so ignorance is not your foe,
I will still give you the symbols to show you how they fit in
As I don't want you to think me idle as Sloth's a deadly sin.

So first we come to **Fence (CH)** which stands for **Spiritual Will**
This one's not too bad so we can very quickly kill,
A fence is a movable boundary not a huge demand
As too is the Spiritual Will for it will grow and expand.

Then we come to **Tooth (SH)** or **Spiritual Understanding**
It's what gives the Word its bite, that wasn't hard in landing,
With Spiritual Understanding you get the deepest Truth
So when giving explanations the meanings not aloof.

So finally the last one and **Cross (TH)** come to light
It stands for **Spiritual Wisdom** if that will help you in your plight,
The cross is actually symbolic of the Tree of Life
I mean the 6 Days of Creation so that now ends the strife.

To finish off the alphabet **God** comes into play
Or **Will seeing transformation** if you want the longer say,
The transformation of the Holy Spirit if you want the truth
With this thing inside you, you have eternal youth.

This is what enlightens you, manna from above
This is what you get when you activate the Law of Love,
A reward for your labour, for every selfless act
It's not superstition but a cold hard fact.

Well hopefully you understand it and light you want some more
For I have a little something, a real treat in store
Up to now it's been the Abrahamic Religions but now we'll have a change
I thought I'd try some Greek Genealogy and bring it into range

It's actually the Greek Pantheon and makes an interesting read
I won't put it in rhyme as there really isn't a need,
It pretty much straight forward and easy to understand
So go ahead enjoy it, it won't make much of a demand.

From Chaos and Nox which is night came Erubus which is darkness who paired with Nox and from this pairing came Aether or light and Hemera, day from the union of these two came Eros which is love. Now from Eros came Gaea, earth and Pontus, sea.

Gaea merged with Uranus and from the union came Saturn, Rhea, Coeus, Pheobe, Japetus, Oceanus, Tethys and Cronus

Saturn and Rhea got it together and from the union came Zeus, Demeter, Hera, Hades, Poseidon and Hestia and Zeus went on to have Athene

Coeus and Pheobe got together and had Leto,

Japetus went on to have Epimetheus who had Dione, Prometheus and Altas who had Maia.

From Oceanus and Tethys you get Inachus, Oceanids, Clymene and Doris who married to Nereus gives Nereides.

Then Cronus and Rhea got together and had Neptune and Amphitrite who themselves got together and had Proteus, Triton, Galatea and Thetis who had Achilles.

Gaea and Pontus got together and had Nereus, Thamus, Pharcys and Ceto.

From Thamus you get Iris and Harpies.

From Pharcys and Ceto you get Gorgons, Sirens and Scylla

Or from the spiritual will of God seeing understanding and light seeing insight you get through knowing love, a self of loving understanding which paired with light seeing insight gives you God through spiritual wisdom (through knowing) and the spirit and life through knowing God. The mergence of these two gives you (through) knowing seeing understanding from which you get a will of God (through God) and the word sees light (wisdom),(loving understanding)

From a will of God (through God) and loving knowing of God's light (loving understanding) you get understanding God's wisdom (love knows light) spiritual knowing through God, the will sees (through loving understanding) the spiritual word(through seeing self through) and blessed by God's word (through wisdom) loving understanding sees will through God's light, love understands wisdom through spiritual wisdom blessing understanding and a will of knowing seeing light (loving understanding).

From Understanding God's wisdom(love knows light) and spiritual knowing through God you get a mind through loving understanding transformed through life and wisdom(through knowing), the spirit through knowing God, the spirit of God transformed through understanding, the word seeing understanding through blessed transformation seeing light and the spirit through understanding wisdom blessed by God. From a mind through loving understanding you get God's spiritual wisdom and light through.

From the will seeing through loving understanding and the spiritual word (through seeing self through) you get God's purpose through wisdom seen.

From being blessed by God's word through wisdom, (loving understanding) you get through the word, a blessed life through spiritual wisdom and loving understanding which gives you a transformation (blessed seeing light) through the word (knowing seeing life) through spiritual wisdom and loving understanding, and God, God's purpose (the wisdom of God's understanding) from which you get a life of God blessed by God.

From seeing will through God's light(loving understanding)and wisdom through spiritual wisdom blessed with understanding you get the blessed light of God's spiritual will, loving understanding sees will through God's light(blessed transformation), an understanding will of God's purpose blesses life and light through transformation seeing knowing(blessed with understanding)which married to light and knowing through loving understanding gives you light through knowing and the blessed transformation through understanding.

From a will of knowing seeing light(loving understanding)and spiritual knowing through God you get light through the word (wisdom), loving light through God's life, and the

spiritual word blessed with wisdom (knowing blesses wisdom through)from which you get the word (known seeing wisdom) through loving understanding, wisdom knowing blessed wisdom seeing light, a will of God (God's purpose), God's wisdom through God and spiritual wisdom through wisdom blessed with understanding which gives you God's spiritual will blessed with God's purpose(God's purpose through understanding).

From a will of God (though God) and the word seeing light (wisdom)(loving understanding) you get light and knowing through loving understanding, spiritual wisdom, (God's life), loving understanding of the spiritual word, God's knowing will blessed with understanding and a will through wisdom seen.

From the spiritual wisdom of God's life (loving understanding) you get blessed with knowing blessed understanding and the spirit of God knowing the word (blessed through understanding).

From (spiritual word) God's knowing will blessed with understanding and a will through wisdom seen, the will sees a knowing will seeing light understood (understanding blessed with knowing through light understood) and you also get an understanding will (blessed with God's purpose), God's purpose and God.

Zeus got together with Europa and had Minos

From a mind through loving understanding and through love known seeing the word of God you get a life blessed with light seeing understanding.

Zeus married Metis and had Athena

Or from a mind through loving understanding and Life through wisdom (blessing understanding) you get God's spiritual wisdom through light of God.

Zeus married Hera and from them came Hebe, Ares and Hephaestos

Or from a mind through loving understanding married to the spirit through knowing God you get the spirit and self through God's knowing (through understanding) and the spirit through the spiritual word of God through understanding wisdom (seeing understanding).

Zeus had an affair with Leto from which came Apollo and Artemis

Or from a mind through loving understanding and God's purpose through wisdom seen you get God's word seeing God's purpose, and God's purpose seeing God's knowing wisdom through a life blessed with understanding.

He also had an affair with Dione and from it came Aphrodite

Or from a mind through loving understanding and transformation blessed seeing light through you get God's spiritual word known seeing transformation blessing wisdom through.

He also had an affair with Maia and from this came Hermes

Or from a mind through loving understanding and a life of God blessed by God you get the spirit through knowing life through understanding.

He also had an affair with Semele and from this came Dionysus

Or from a mind through loving understanding and understanding through life and God's purpose through you get the transformation blessed seeing light(blessed with understanding loving understanding).

He also went with Themis and from his union came Horae, Parcoe and Astra

Or from a mind though loving understanding and spiritual wisdom through a life blessed with understanding you get the spirit seeing knowing(God through the word), **God's knowing will seen though God** (understanding wisdom) **knowing God.**

He got with was Mnemosyne and from these came the muses Clio(history) Euterpe(lyric poetry), Thaleia(comedy and Idyllic) Melpomene(tragedy), Terpsichore (choral dance and song) Erato(erotic poetry and mimicry) Polymnia (sublime hymnal) Urania (astronomy) and Calliope(epic poetry)

Or from a mind through loving understanding and a life of light through life seeing understanding(blessing light through) **you get a will of God's purpose** (blessed seeing) **through loving wisdom through knowing the word** (through spiritual wisdom), **God, God's purpose and blessed by God's life through God's purpose the word sees life through light and wisdom through knowing the word, understanding blesses spiritual will** (seeing knowing) **and through knowing God's wisdom seeing the word**(seeing God's purpose) **blessing life, light blessed by God's loving knowing** (God's light blessed by God) **and will of God** (God's purpose), **God's purpose blessed seeing the word through.**

Zeus and Alcmena got together and had Heracles **Or from a mind though loving understanding and God's** (God's purpose) **will** (life and light through) **you get the spirit through knowing God's will,** (God's purpose through understanding).

He also got with Demeter and had Prosperpina

Or from a mind through loving understanding and transformation and life through wisdom (through knowing) **you get the word known seeing understanding and the word through knowing the word blessed by the light of God.**

Finally he got with Eurynome and had the graces Aglaia, Thalia and Euphrosyne **Or from a mind through loving understanding and through loving knowing blessing light** (seeing life through) **your will knows God's will through understanding and you get God's will** (God's purpose) (God blessed by God), **the spiritual wisdom of God** (God's purpose blessed by God) **and through love the spiritual word knows seeing understanding blessing light through.**

Chapter 7. Mythological Madness and Mantras

Mythologies were the scriptures of the day
It might be wise to understand them as they have a lot to say,
The Story of Oedipus is as good a place as any to make a start
Though I had better tell you it before we take it all apart.

He was born to Laius and Jocasta the Theben King and Queen
Though he was not to be happy there as his father had turned mean,
Laius had heard in an oracle at Delphi that he was cursed to be killed
And it was to be by his Son as that was what had been willed.

To Laius Oedipus it seems could have been quite a thorn
So he wanted him killed just as soon as he was born,
He left him exposed to die in a desolate mountain place
But he was found by a Shepherd who had a kindly face.

The shepherd took pity on him and took him out the desolate scene
He went over to Corinth and got him adopted by it's King and Queen,
King Polybus and Queen Merope were how they were known
And Oedipus stayed with them until he was fully grown.

Now when he was fully grown he visited the Delphi for himself
And found out some things that would effect his mental health,
He was destined to kill his Father and marry his Mother too
He thought it meant the adopted ones as he hadn't got a clue.

He vowed never to return to Corinth and go traveling instead
So went to Thebes to start off as that's where his instincts led,
He got into an argument with Laius over who had right off way
And from this a fight ensued in which Oedipus won the day.

He next came to a Sphinx who would not let him proceed
Until he answered a riddle which could be a dangerous deed,
For if he was to fail then he would have life no more
And Oedipus could not refuse to answer as he'd be dead for sure.

“What has four legs then two and then finally three
And the more legs that it has the weaker it will be,”
Now Oedipus knew the answer and so he said “Man”
And the the Sphinx destroyed itself, her purpose down the pan.

The Sphinx had killed many men who had took and failed the test
So the People of Thebes were very happy that he had come out best,
Now as a reward for this act he received the throne
Also the hand of Queen Jocasta so he would not rule alone.

When the truth finally came out about how King Laius died
Jocasta who was racked with guilt and grief committed suicide,
Oedipus too took it bad as the deed was much too vile
So he went and blinded himself and went off into exile.

Okay that's the Story so the meaning's our next goal
Firstly Laius and Jocasta were actually his Spirit and Soul,
This could get quite confusing and leave you in a bind
To make it a little easier think of Thebes as the Mind.

Now Corinth was the Physical World where Oedipus was born
He had adopted Parents now here we get a thorn,
Parents for one lifetime who brought with them frustration
For the Writer of this Story must have believed in reincarnation.

Anyway back to the Story and his Father he did slay
Though sometimes in Mythology things aren't as they say,
To kill might mean obtain so it wasn't really a fight
It just meant Oedipus got free will and the Divine Rite.

If you want to parallel the story Genesis comes to mind
When Adam ate of the Tree of Knowledge and was no longer blind,
He knew Good from Evil and a God he became
Although in the story all he got was blame.

So then the Sphinx and the question, we'll go a little deeper
For it's the evolution of Man so ignorance is not your keeper,
From Child to Adult to Old Age to get you out of strife
And to go even deeper it's talking about the meaning of life.

Then the Sphinx destroyed itself as it had served its purpose
For with Oedipus knowing the answer it had become surplus,
And if you are looking for comparison Genesis will not abate
For in it is the Cherubim that guards Eden's gate.

It was there to stop you getting in and eating the Tree of Life's fruit
For you would live for ever and give mortality the boot,
It, like the Sphinx was an obstacle you needed to pass to get your goal
Which in Oedipus' case to sleep with his Mother or merge with his Soul.

You see once this mergence was complete you would have eternal youth
So if you are looking for comparison in Genesis it isn't that aloof,
Now after this mergence Oedipus was blind to material reality
For he had the knowledge of what was truly meant to be.

From reading the Story though you would not know this
You would have thought his life was anything but bliss.
The Story you see was just the vehicle that carried the truth
The knowledge was hidden and to the many it proved aloof,

It was more in symbolic form and in it might be placed a gaffe
So be careful when reading as you might end up on a false path,
These are called Occult blinds put in to lead you astray
But with Patient understanding you will find the way.

Another thing with mythologies is that the message maybe hidden in part
An example would be the Cherubim on Eden's Gate so its here we start,
You know he's there to block you but you don't know how to defeat him
You find that out in the Story of Oedipus making you less dim.

So you have to cross reference mythologies to get the big picture
The Story of the Tower of Babel comes next then to add to the mixture,
This Story illustrates what I am writing about and does it in style
So it seems a good idea to dwell here a little while.

Now when God confounded the languages you'll find this absurd
For it was actually talking about the Language of the Birds,
Or you could call it Esoteric Knowledge which is also called Light
I will now prove it to you as it is hidden in plain sight.

Man already had languages you see as he had had them long before
Since the time of Japheth's grandchildren if you want to know some more,
Noah, Japheth, his children, their children, generations that is three
Though by the time of the destruction another two generations had come to be.

The Tower was destroyed during the time of Peleg if you can recall
Noah, Shem, Arachsad, Shelah, Eber and Peleg so that's 5 in all,
Now also in the book some words had been switched around
Looking for an occult blind well that's one you found.

Genesis chap10 verse 10 line 5 you'll find Japheth there
It's talking about his descendants though you should have a care,
For it does the same with Ham and Shem only worded differently
All the words have been moved around but language is the key.

You see in the line I mentioned it is just down as one
Yet in Ham and Shem later there seems to be a con,
For it is in the plural meaning there were more
And the whole phrase was worded different than before.

It might be a good idea to work out the Tower's meaning
For as it's to get to heaven it must have a spiritual leaning,
Now if heaven is a state of mind the bricks are what build it
So in my opinion Esoteric Knowledge would seem to fit.

Next I would like to take a look at the Book of Revelation
A complicated Book to read about the destruction of a Nation,
It does have a parallel with Ragnarok which actually comes from Norse
But we will get back to that, well in due course.

Firstly Revelation then a strange book you will admit
It has actually been split up to make it harder to understand it,
It is talking about one natural event but by the time it's been unfurled
It will cause that much damage that it will desolate a third of the world,

Heralded by an earthquake the like of which has not been heard by Man before
Then the Sun will be completely blacked out and there's even more.
The Moon will turn blood red well I think the rest you know
Because what we are actually talking about is a super volcano,

We even have a rough idea of when it will occur
So I guess that all is left to find out is actually the where.
Now in Ragnarok the Sun goes dim so its further from the source
Though the planes still fall from heaven so the dust is still on course.

There is no Earthquake mentioned though a Tsunami does occur
So go to its direction and you'll find your answer there,
Now Scandinavia's coast falls on the west so it's to the west of it
Just get out the map and cross the Ocean and there you'll find the hit.

To finish off I would like to return back to Genesis
And dwell on the story of Cain as it's not one to miss,
Now Cain killed Abel, or did he as it might stand for obtain
Might be worth a closer look to see if there's any gain.

So when he killed Abel he actually obtained God's blessing for himself
Which would make more sense as he had protection a wealth,
Anyone who harmed him would have God's wrath to face
Which is not something I would recommend, definitely not the case.

First though I would like to re look at Adam as I'm quite a fan
On one level he was actually a type of Man as opposed to a man,
When God took away a rib and created Eve it meant that another Man came to be
Then Eve went on to have three sons so from this Man came another three.

Now as Genesis is about us you can safely say that **Homo Sapien** was one
We actually share a common ancestry so two more could be done,
Neanderthals and **Denisovans**, we are all from the same source
We all come from **Homo Heidelbergensis** who is **Eve** of course.

Now Eve herself did evolve so the snake was not to blame
She actually evolved from **Homo Erectus** or **Adam** was his name,
Now he had the use of fire and also had free will
So putting it in that light he would certainly fit the bill.

So anyway back to **Cain** and we'll talk about his **mark**
It seems to have had a bad press for some people think it stark,
Anyone that saw this would know that he was well protected
And that he should be left well alone as he was one of God's elected.

There is only really one thing it can be when you give the matter thought
I'm afraid it is a **Halo** so forget all you've been taught,
You'll see a Halo in old paintings of Saints and Men of devout faith
A circle of light around their head they would stand out in any place

God's blessing is enlightenment, a by product of this is a face that glows
You are that full of light that it shines into your aura so everybody knows,
Cain being enlightened would naturally want to go East to the rising Sun
He was in search of more light for there was plenty to be won.

Also with God's blessing that would make **Cain** a **son of God**
And his offspring too as to the East they trod,
It was these that met with the **daughters of men** or **Seth** I should say
Though it works on another level then that's it for today.

It appears there was a mержence of two types of men
It seems we mixed with Neanderthals though don't ask me when,
It's in our D.N.A. so it would seem to fit
Anyway come to mythologies I'm afraid that's really it.

On the subject of Mythologies I would like to drop the verse and bring us back to the good old Tree of Life and first take a look at Norse Mythology. We will start off with **Vanaheim** or **Love of God, light of God (Spirit through blessed life)**. Now first notice it say spirit through blesses life. It is actually two Spirits, life and love. You will also notice that in the names I will give you that heim is repeated 7 times to denote the Seven Spirits. Hopefully we will sort that out when we get to it. So moving onto the next one **Swartalfheim** or **understanding love God knows the wisdom of God (God's purpose) (spirit through blessed life)**. It's a Spirit of God again but this time the spirit of Understanding. Without understanding you will never truly know the wisdom of God. You might know the wisdom and recite it parrot fashion but without its understanding you will never get its true benefit. Next we come to **Niflheim** or **Light blesses the Word, God's purpose (Spirit through blessed life)**. You are the Word and blessed with this light you get insight and know right from wrong. So that's Level 3 sorted.

Moving onto Level 4 we have **Jotunheim** or **Blessed seeing wisdom, loving light (spirit through blessed life)**. Another Spirit and this time the Spirit of Wisdom. Not much to say really. Anyway Level 5 and **Midgard** or **Life blessed with transformation, will of God knowing this transformation**. The journey through life is supposed to be the transformation from which you get enlightened of a will of God. Level 6 now and we have found the missing Spirit. **Alfheim** or **God's purpose, the Word (Spirit through blessed life)**. This is the merging of two Spirits, the Word or Spirit of Wisdom and the Spirit of Understanding or God's purpose. This is when your life starts to turn to love and you have purged your self of material and carnal desire. Not long afterwards you have Level 7 or **Muspelheim** or a **Life of loving understanding the Word through God's purpose**. when you meet your maker and get true understanding of God. In hand we have Level 8 or **Asgard** or **God's understanding, will of God's knowing transformation**. This is actually the Spirit of Knowing but as it happens at the same time as Level 7 it is the Heim in Muspelheim. So Level 9 then and **Helheim** or **Spirit through God's purpose (Spirit through Blessed life)** or the Spirit of Purpose. The culmination of all this is **Yggdrasil** or **Blessed with will, will transformed knowing God's understanding blessed with God's purpose**.

Now that wasn't too much of a labour was it? Now speaking of labour it is now the turn of Greek Mythology and the 12 labours of **Heracles** or **Spirit through knowing God's will, God's purpose through understanding**. Now some say **Hercules** or **Spirit through knowing will of love, God's purpose through understanding** and as a will of love is God's will there's no real difference. The levels are hidden in the names but there is also a story weaved around them to add to the knowledge. Heracles was a son of Zeus and on completion of these labours would be recognised by the other Gods and Goddesses as one of their own. So basically its the Soul's journey to reach its Godhead.

Labour 1, **The Nemean Lion-Spiritual wisdom through light and life(through God's light)God's purpose blessed seeing light**. Life through God's light that being His purpose and spiritual wisdom through light is its essence so God's purpose blessed seeing light is the merging of the two, a being with the ability to create or a grail with the ability to serve take your pick (mine's the shovel). And the story itself? Heracles strangled the life out of it and took its hide symbolic of its power for his own. It was believed in ancient times that if you wore then skin then you became it. You might have come across this in Norse of the berserker which mean's bear's shirt or the strength of the bear.

Now onto Level 2, labour 2. **The Lernaean Hydra** or **Spiritual wisdom through God's purpose and knowing light (God through God's light) spirit blessed with transformation (knowing God.)** The first part spiritual wisdom through God's purpose and knowing light is basically just telling you how you get spiritual wisdom and that is through divine work (serving God's purpose)and knowledge of the divine (light) The second part God through God's light (spirit blessed with transformation knowing God). The spirit that transforms through knowing God is the spirit of understanding for life blesses life understanding God's transformation. God through God's light is God blesses the word for God's light is the word and when God blesses it He works through it (God's purpose) and brings it to life. And the story itself? The well of Amymone is the Holy Spirit the three springs being the spirits of purpose, love and understanding and Amymone, God's life (blessed with life seeing light through) who owned it is a spiritual life. The hydra guarded it. It had nine heads, one of which was immortal and every-time one was cut off two appeared. It was symbolic of the seven deadly sins and spiritual pride (arrogance) which was mortal and spiritual envy (anger) which had to be buried. Now as I said two heads appeared when one was cut off and the only way to kill it was to burn the heads with the help of Iolaus (Blessed seeing God's purpose, God's loving understanding) for this purifies all fears through understanding them. Without truly understanding them they live on and multiply. This level is instinct and is found in the lower realms of fauna basically animals controlled by their instinct.

Labour 3. **Ceryneian Hind** or **will through knowing blessed light and blessed by light spirit blessed with light transformation**. Now through understanding wisdom you get God's will so God blesses the

word. Wisdom, well actually loving spiritual wisdom is God's will and understanding this, I mean the wisdom not the concept builds up your spiritual awareness. Now the only way to understand wisdom is through discernment, another of the seven spirits of God. On this level it comes over as knowledge of good and evil but on its highest level it comes over as insight. Anyway like the Hind we will move swiftly on this level it is where man kicks in with his power to know right from wrong.

Labour 4 **The Erymanthian Boar or through knowing blessed life, (God's light) spiritual wisdom blesses God's light, Self sees God's knowing.** The Spirit of wisdom which can be quite destructive in its early stages (a little knowledge is a dangerous thing some say) so needs to be cooled down. At this level we are talking about the growth of the ego. A downside to discernment is self consciousness, the start of the ego's life. Erymanthus (the neighbour-hood it ravaged) means through knowing blessing life (God's light) spiritual wisdom (Loving understanding). Now the Soul is knowing and God's light is its life made of spiritual wisdom that feeds your understanding through your imagination.

Labour 5. **Augean Stables or God's loving will through God's light understanding wisdom (God's self) God's purpose through understanding.** Now by understanding wisdom you get God's self and God's purpose through understanding means you understand it as opposed to know it. God's purpose is the action, the work of God and God's self is the spirit of God blessed by God which is actually the spirit of wisdom blessed by understanding or God's blessed light. At this level you eventually become a bit more charitable to your neighbour and maybe a little more spiritually aware though you might not be conscious of it. As it grows you seem to develop a thirst for knowledge, sometimes not esoteric just knowledge in general. The journey through life is to generally clean the mess you have made of it. In your ignorance of the big picture you might have gathered a lot of bad Karma. This might need a lot of self development to purge you of its cause (the seven deadly sins). So the two rivers that cleansed the sheds **Alpheus and Peneus or God (God's purpose), the spiritual word through loving understanding and the word through light through loving understanding.** I would just say that, that leaves little to the imagination.

Labour 6. **The Arcadian birds-spiritual wisdom-through God's knowing will (God's transformation blessed by God's light) self blessed with knowing transforms to understanding.** The self blessed with knowing (God's knowing will) transforms to understanding through enlightenment (transformation blessed by God's light) through spiritual wisdom. Now God's knowing will is the spirit of wisdom and through enlightenment merges with the spirit of understanding through transformation. In other words the self blessed with knowing transforms to understanding. So level six is the mergence of the spirits of wisdom and understanding.

Labour 7 and doesn't it go quickly. **The Cretan Bull-Spiritual wisdom-Through will of knowing and wisdom (God's light) self of loving purpose (God's purpose)**

. With God's blessing you get a self loving purpose, well more to the point you become one. You have a shift in consciousness from light to understanding and your old self dies. And the relevance to Heracles? He had to bring back the bull to **Peloponnsus** alive or **the word-through God's purpose (seeing the word) seeing light, light through loving understanding** and that is loving understanding. So what does he have to bring to loving understanding? A self of loving purpose. Understanding and wisdom,

Labour 8. **The Diomedes Mare- Spiritual wisdom- from transformation blessed (seeing life through transformation) through understanding, life of God's knowing from.**

So from the transformation blessed through understanding you get a life of God's knowing or the spirit of knowing. And Heracles? He had to obtain it as opposed to kill it. Its hunger for flesh is its yearning for knowledge

Labour 9 **The Hippolytes Girdle (received from Ares)- Spiritual wisdom- Through the spirit blessing the word the word sees God's purpose blessed with wisdom through understanding-the will (Blessed with knowing)transforms to God's purpose through** and this came from God's knowing

through understanding. So through the spirit blessing the word God's purpose blessed with wisdom transforms through understanding-the will transforms God's purpose through. The spirit of purpose anyone? So onto Heracles, the girdle was the spirit of purpose. When he slew Hippolytes the transformation was complete.

Labour 10 **The Gades Oxen, spiritual wisdom- will of God transformed through understanding (seeing insight through light)**

Seeing insight through light. That's when you look into the word and get a deeper meaning (insight). Loving spiritual wisdom or blessed light is its name. This transforms your understanding and purifies the grail. Basically you purify yourself of the emotional heartache you had to go through to get to this stage. And Heracles? Well he had to bring the oxen back to Argos (**God's knowing, will sees understanding**) or in other words to get deeper insight. Now Gades was ruled by Geryon so **a will through knowing (Blessed seeing light) rules the will of God transformed to understanding** or enlightenment rules your transformation.

Geryon was a monster with three heads signifying the triple path of enlightenment. Anger, Pride and love. Take your path and it will control your destiny for that will be the purpose that you serve. The oxen were guarded by a two headed dog and its owner the giant Eurytion or **through loving knowing blessed with light blessed seeing light**. Now loving knowing is actually insight for it means knowing God as opposed to God's knowing, so when he slew the giant he got it. The two headed dog signified two of the paths to enlightenment and the giant the last one, the one that actually led to insight, Love. And as to the Pillars of Heracles. Well as some Altantean theorists tend to forget its relevance to their story I will do the same.

Labour 11-**The Hesperides Apples, Spiritual wisdom through the spirit that understands the word and knows the blessed transformation through understanding-God (the word) the word (God's purpose) through understanding.**

So in the end there was the word, the word was with God, the word was God. (Well not quite as it should be God's but that's level 12). The wisdom of God would be the word or a will of knowing in essence and the word would be a self of love understanding its purpose for God's purpose is to love. So Heracles. **Eridanas river Nymphs or through knowing blessed with transformation (God's light), God's understanding. Knowing blessed with love (through knowing light) blessed with life-spiritual word understood.**

From knowing transformed to loving understanding is the process of purification through loving spiritual wisdom so that you can become a self of loving understanding. Love blessed with life? Life would be what you get from spiritual wisdom and blessed with love cleansed light (pure light as opposed to light). This is done through understanding spiritual wisdom (as opposed to just knowing it) and where did they send him to?

Nereus or light through knowing and loving understanding-more light. Now he was an aging sea dog, the sea being emphasis of the spiritual and could only be caught asleep and on land. You have to bring it down to Earth to awaken it. He took many forms means that you can read it in many ways is talking about the decoding for it can be pretty tricky with the sub texts and floating 'E'. Heracles was then sent to the titan Prometheus or **the word-knowing seeing life through spiritual wisdom and through loving understanding**. So from loving spiritual wisdom you get a deeper knowing of God and life in general for you have quite an understanding of the big picture. And **the vultures** that fed on him? **Spiritual wisdom-through loving love (God's purpose) wisdom (loving knowing) through understanding** or through loving (the action) love (the purpose) you get wisdom (loving knowing as opposed to knowing) through understanding. The last part means a deeper understanding and the first part the activation of your purpose. You have to work for it I'm afraid. Now when Heracles killed the vultures he got even more spiritually aware both in action and in deed. Well then the titan sent him to his

brother **Atlas** or **God's wisdom, God's purpose (God's understanding)** and this is what supports a spiritual life(heaven's above). Heracles took over Atlas' purpose so Atlas could fetch the apples to him so as Atlas was his purpose when Heracles took over he became it.

Labour 12 **Cerberus-will through knowing self and knowing loving understanding.**

Cerebus speaks for itself really. A will that knows itself through loving understanding. Heracles had to bring it into the light and carry it back to Eurystheus or understand it. When he was in **Hades (the spirit of God's transformation through understanding)** he got the liberty of **Theseus (Spiritual wisdom and understanding through loving understanding)** or loving spiritual wisdom was released. Think of level 10 as the final level for 11 is the unpurified grail and 12 the purified it that's any help.

To finish off the book I would like to dwell on Mantras for a while
Just think of them as prayers although in another style,
Their importance has for far too long been overlooked you'll find
Through instruction to the subconscious it can actually mould your mind.

First I would like to give you a Mantra that should help with confidence
When you meet someone for the first time and it makes you tense,
Now this lack of confidence come from the fear of the unknown
And as you do not know them this fear is quickly grown.

Try saying

'Pretend that you've known them all your life you can catch the details later'

You will be surprised at the change you will see in yourself
It really is a boon when it comes to mental health,
Don't forget through experience that true confidence is grown
Though here's another Mantra for confidence that is quite well known
'Every day in every way I'm getting better day by day'

Yes mantras are powerful things that should be treated with respect
Try and say them regularly and try not to neglect,
They work on many levels as reality is not their keeper
When it comes to levels I would like to take it a little deeper
'Every day in every way I'm getting younger year by day.'

This one can actually help you to rejuvenate yourself
It seems to give you more energy and I mean quite a wealth,
And in the field of self development Mantras can play a pivotal role
They also give you strength of mind to achieve any goal.

I generally say them in sets of seven as this seems to feel just right
I say them anytime I like could be day or night,
It actually gives me a lift and keeps negativity at bay
Usually first thing in the morning and last thing at night I say

'I surrender my will to the greater will the will of the divine, I will to will thy will.'
and alternate it with

'I drift through life just float along guided by my Mother's tongue, because she's the one that keeps me strong and tips me off when things are wrong. Yes she's the one that holds my hand when life makes for its high demand with motives truly underhand she is the one who understands.'

After saying these two sets I finish off with

'Protect me father as I wake and guide me through each step I take, for with your love the war is won and we can truly be as one'

in the morning and

'Protect me Father as I sleep and give me strength and faith to keep for with your love the war is won and we can truly be as one'

at night.

Doing this keeps me grounded and gives me a certain peace of mind
So anyway back to self development to see what we can find,
Now with Self development you actually try to purify your Soul
To be at one with the Universe once you've achieved this goal.

So the Mantras to achieve this shall be next on the list of things to do
We are talking of the deadly sins so it's really nothing new,
This should get rid of your self interest and material drive
And hopefully once their gone you can Spiritually thrive.

The first one I will give you is sloth.

'I surrender my sloth to the great Divine to do with as thy will'.

You just change sloth to pride, envy, anger, lechery, avarice and finally gluttony, in no particular order.

You can say these as often and as many times as you want
Although it's only just a baptism at the font,
Next I will move onto a more complicated series to dwell
A more powerful set of mantras to take you out of hell.

The deeper the insight the more powerful the prayer
So Seven Spirits of God you will find them there,
Seven Deadly Sins they'll be there as well
Set out like a rainbow to take you out of Hell.

Starting at the bottom

'We surrender our anger to the Great Divine for we want God's spiritual love'.

I said this for three days and on the fourth day intermingled it with the next

'We surrender our gluttony to the Great Divine for we want a spiritual life'.

This was done by saying them alternatively anger, gluttony anger gluttony etc. I then dropped the anger one and for the next two days I just said the gluttony one. After that I then intermingled it with

'We surrender our lechery to the Great Divine for we want God's understanding'

for a day before dropping the gluttony one and saying the lechery one on its own for the next two days.

Then I intermingled it for a day with
'We surrender our avarice to the Great Divine for we want to have God's insight'
before going onto two days with just avarice. Then did the same with the next two mantras

'We surrender our sloth to the Great Divine for we want to have God's wisdom'
and

'We surrender our envy to the Great Divine for we want to have God's knowing'. After two days of
saying knowing on its own I intermingled it with

'We surrender our pride to the Great Divine for we want to have God's purpose' before finishing
off with saying that on its own for the last three days so reaching the top of the rainbow.

The Mantras overlap just as the colours do on the rainbow
And come to purification it will vanquish any foe,
You can either say them in batches of seven or just continuous
It's good for meditation or just sitting on the bus.

I also find that rhyming them makes them easier to remember and to say.
Here are a few examples.

'Lechery is not part of me and pride does no longer chide'.

'Anger and sloth to them I am loath I have to admit that I hate them both'.

'Pride and envy are not for me from them I do not want to see'.

'Sloth is no longer part of me I want to do this properly'.

An easy rhyme scheme is
'Anger and sloth is not part of me they have no place in my psyche,' etc.

This also works with virtues
'Patience and humility are now part of me for come to life they hold the key.'
Then replace Patience and humility with
'fortitude and temperance'
and finally
'faith, hope and charity'.

It can also work with the spiritual side
'Spiritual Anger like Spiritual Pride with neither of them I want to bide'.

To finish off I will leave you with a few that might prove useful
'I surrender my self to the greater self to evolve unto my purpose'.

'I am at one with my Self.'

'The unknown is just what's not known to me yet'.

'I have nothing to fear but fear itself'.

'All those that try and get in my way please oh Great Spirit keep them at bay'.

'I'm getting stronger every day self doubt doesn't stand in my way'.

'Stress with me don't mess, in fact I couldn't care less'.

'Help me Lord to understand so I can cope with this demand'.

and finally 'I am the light so darkness won't prevail'.
